## **Three Raison Net:**

Demystifying AI and ML for Cyber-Threat Intelligence Ming Yang, Sachi Nandan Mohanty, Suneeta Satpathy, Shu Hu, 2025-08-16 This book simplifies complex AI and ML concepts making them accessible to security analysts IT professionals researchers and decision makers Cyber threats have become increasingly sophisticated in the ever evolving digital landscape making traditional security measures insufficient to combat modern attacks Artificial intelligence AI and machine learning ML have emerged as transformative tools in cybersecurity enabling organizations to detect prevent and respond to threats with greater efficiency This book is a comprehensive guide bridging the gap between cybersecurity and AI ML by offering clear practical insights into their role in threat intelligence Readers will gain a solid foundation in key AI and ML principles including supervised and unsupervised learning deep learning and natural language processing NLP while exploring real world applications such as intrusion detection malware analysis and fraud prevention Through hands on insights case studies and implementation strategies it provides actionable knowledge for integrating AI driven threat intelligence into security operations Additionally it examines emerging trends ethical considerations and the evolving role of AI in cybersecurity Unlike overly technical manuals this book balances theoretical concepts with practical applications breaking down complex algorithms into actionable insights Whether a seasoned professional or a beginner readers will find this book an essential roadmap to navigating the future of cybersecurity in an AI driven world This book empowers its audience to stay ahead of cyber adversaries and embrace the next generation of intelligent threat detection

**Smart Trends in Computing and Communications** Tomonobu Senjyu, Chakchai So-In, Amit Joshi, 2024-05-14 This book gathers high quality papers presented at the Eighth International Conference on Smart Trends in Computing and Communications SmartCom 2024 organized by Global Knowledge Research Foundation GR Foundation from 12 to 13 January 2024 in Pune India It covers the state of the art and emerging topics in information computer communications and effective strategies for their use in engineering and managerial applications It also explores and discusses the latest technological advances in and future directions for information and knowledge computing and its applications

*Third Congress on Intelligent Systems* Sandeep Kumar, Harish Sharma, K. Balachandran, Joong Hoon Kim, Jagdish Chand Bansal, 2023-03-11 This book is a collection of selected papers presented at the Third Congress on Intelligent Systems CIS 2022 organized by CHRIST Deemed to be University Bangalore India under the technical sponsorship of the Soft Computing Research Society India during September 5 6 2022 It includes novel and innovative work from experts practitioners scientists and decision makers from academia and industry It covers topics such as the Internet of Things information security embedded systems real time systems cloud computing big data analysis quantum computing automation systems bio inspired intelligence cognitive systems cyber physical systems data analytics data web mining data science intelligence for security intelligent decision making systems intelligent information processing intelligent transportation artificial intelligence for machine vision imaging sensors technology image

Asari,Vijendra Singh,Rajkumar Rajasekaran,R. B. Patel,2022-09-08 The book features original papers from International Conference on Computational Methods and Data Engineering ICCMDE 2021 organized by School of Computer Science and Engineering Vellore Institute of Technology Vellore Tamil Nadu India during November 25 26 2021 The book covers innovative and cutting edge work of researchers developers and practitioners from academia and industry working in the area of advanced computing     *Information Systems Design and Intelligent Applications* J. K. Mandal,Suresh Chandra Satapathy,Manas Kumar Sanyal,Partha Pratim Sarkar,Anirban Mukhopadhyay,2015-01-20 The second international conference on INformation Systems Design and Intelligent Applications INDIA 2015 held in Kalyani India during January 8 9 2015 The book covers all aspects of information system design computer science and technology general sciences and educational research Upon a double blind review process a number of high quality papers are selected and collected in the book which is composed of two different volumes and covers a variety of topics including natural language processing artificial intelligence security and privacy communications wireless and sensor networks microelectronics circuit and systems machine learning soft computing mobile computing and applications cloud computing software engineering graphics and image processing rural engineering e commerce e governance business computing molecular computing nano computing chemical computing intelligent computing for GIS and remote sensing bio informatics and bio computing These fields are not only limited to computer researchers but also include mathematics chemistry biology bio chemistry engineering statistics and all others in which computer techniques may assist     *Artificial Intelligence and Speech Technology* Amita Dev,Arun Sharma,S. S. Agrawal,Ritu Rani,2024-11-23 This two volume set CCIS 2267 and 2268 constitutes the refereed proceedings of 5th International Conference on Artificial Intelligence and Speech Technology AIST 2023 held in Delhi India during December 26 27 2023 The 71 papers presented in two volumes were carefully reviewed and selected from 235 submissions Part I focuses on Speech Technology using AI and Part II focuses on AI innovations for CV and NLP These volumes are organized in the following topical sections Part I Trends and Applications in Speech Processing Recent Trends in Speech and NLP Emerging trends in Speech Processing Advances in Computational Linguistics and NLP Part II Recent Trends in Machine Learning and Deep Learning Analysis using Hybrid technologies with Artificial Intelligence Exploring New Horizons in Computer Vision Research Applications of Machine Learning and Deep Learning     *6G Communications Networking and Signal Processing* Terence Kin Shun Wong,Vinod Kiran Kappala,2025-02-13 This book includes peer reviewed papers of the International Conference on 6G Communications

Networking and Signal Processing SGCNSP 2023 This book focuses on conceptual frameworks that help understand the basics of electronics electrical and communication It also provides an overview of the upcoming advanced technologies supporting 6G signal processing communication systems and networks mobile and wireless networks and RF and optical communication This book is useful for undergraduate and postgraduate students and research scholars Computational Vision and Robotics Ishwar K. Sethi,2015-01-03 Computer Vision and Robotic is one of the most challenging areas of 21st century Its application ranges from Agriculture to Medicine Household applications to Humanoid Deep sea application to Space application and Industry applications to Man less plant Today s technologies demand to produce intelligent machine which are enabling applications in various domains and services Robotics is one such area which encompasses number of technology in it and its application is widespread Computational vision or Machine vision is one of the most challenging tools for the robot to make it intelligent This volume covers chapters from various areas of Computational Vision such as Image and Video Coding and Analysis Image Watermarking Noise Reduction and Cancellation Block Matching and Motion Estimation Tracking of Deformable Object using Steerable Pyramid Wavelet Transformation Medical Image Fusion CT and MRI Image Fusion based on Stationary Wavelet Transform The book also covers articles from applications of soft computing techniques such as Target Searching and Tracking using Particle Swarm Optimization PSO based Functional Artificial Neural Network etc The book also covers article from the areas of Robotics such as Solar Power Robot Vehicle Multi Robot Area Exploration Intelligent Driving System based on Video Sequencing Emotion Recognition using MLP Network Identifying the Unstructured Environment **Signal Processing, Telecommunication and Embedded Systems with AI and ML Applications** Vikrant Bhateja,V. V. S. S Chakravarthy,Jaume Anguera,Anumoy Ghosh,Wendy Flores Fuentes,2024-12-10 The book discusses the latest developments and outlines future trends in the fields of microelectronics electromagnetics and telecommunication It contains original research works presented at the International Conference on Microelectronics Electromagnetics and Telecommunication ICMEET 2023 organized by Department of Electronics and Communication Engineering National Institute of Technology Mizoram India during 6 7 October 2023 The book is divided into two volumes and it covers papers written by scientists research scholars and practitioners from leading universities engineering colleges and R D institutes from all over the world and share the latest breakthroughs in and promising solutions to the most important issues facing today s society *Recent Advances in Sciences, Engineering, Information Technology & Management* Dinesh Goyal,Bhanu Pratap,Sandeep Gupta,Saurabh Raj,Rekha Rani Agrawal,Indra Kishor,2025-02-14 This conference covered various interdisciplinary areas such as applied science physics material science and engineering The audience got a chance to encircle the various interdisciplinary areas and people working on recent technologies in science engineering information technology and management It was based on the theme of converging interdisciplinary topics into a single platform which helped the participants to think beyond their area and increase their canvas of research

## **Technological Innovations & Applications in Industry 4.0** Dinesh Seth, Sushant S. Satputaley, Minhaj Ahemad A.

Rehman, Amit R. Bhende, 2025-01-27 The conference offered an international forum for discussion and exchange of knowledge on opportunities and challenges related with all facets and aspects of technological innovations applications in Industry 4.0 its challenges and way ahead The objective of this international conference was to provide a platform for policy makers academicians and researchers to share their experiences and knowledge by presentation of scientific advances made in the field of Industry 4.0

### Innovations in Technologies: Pioneering Sustainable Infrastructure for a Resilient Future

Bhalchandra V. Khode, Sudarshan Kurwadkar, P.Y. Pawade, Sujesh D. Ghodmare, Hasim Ali Khan, 2025-04-28 This book harmoniously unites diverse cosmic perspectives nurturing a collective understanding of current trends and cosmic challenges In the book realm of engineering symphonies the International Conference on Recent Trends in Infrastructural Development and Sustainable Materials IC RTIDSM 2023 stood tall as a grand compilation of ingenious research Curated by the visionary Department of Civil Engineering at G H Raisoni College of Engineering Nagpur this symposium danced into existence on the 25th and 26th of November 2023 a celestial stage for academia business professionals and aspiring engineers to unite in an ethereal exchange of creativity and knowledge In pursuit of sustainable dreams the conference ensemble aspired to unravel the secrets of eco conscious materials and resilient infrastructure The grand publication titled International Conference on Recent Trends in Infrastructural Development and Sustainable Materials adorned the illustrious pages of the esteemed Sustainable Civil Infrastructures book series indexed by Scopus The grand stage of IC RTIDSM 2023 sought to integrate the dazzling constellations of ongoing research and innovation from every corner of the globe United under the cosmic banner of progress luminaries practitioners and researchers merged their brilliance to orchestrate a celestial symphony of knowledge sharing and harmonious collaboration This celestial chronicle born from the harmonies of IC RTIDSM 2023 emerges as a guiding star illuminating the path of civil engineering's future In the grand crescendo of its cosmic symphony the International Conference on Recent Trends in Infrastructural Development and Sustainable Materials IC RTIDSM 2023 marks a celestial chapter of knowledge and cosmic cooperation in the realm of civil engineering The celestial masterpiece borne from this cosmic gathering serves as a guiding star illuminating the celestial paths of research policy and action toward resilient and sustainable civil infrastructures Like a celestial conductor it propels humanity forward orchestrating a celestial ode to the present and future resounding with the melody of a better tomorrow

### **Machine**

**Learning Methods for Engineering Application Development** Prasad Lokulwar, Basant Verma, N.

Thillaiarasu, 2022-11-11 This book is a quick review of machine learning methods for engineering applications It provides an introduction to the principles of machine learning and common algorithms in the first section Proceeding chapters summarize and analyze the existing scholarly work and discuss some general issues in this field Next it offers some guidelines on applying machine learning methods to software engineering tasks Finally it gives an outlook into some of the

future developments and possibly new research areas of machine learning and artificial intelligence in general. Techniques highlighted in the book include Bayesian models, support vector machines, decision tree induction, regression analysis, and recurrent and convolutional neural networks. Finally, it also intends to be a reference book. Key Features: Describes real world problems that can be solved using machine learning; Explains methods for directly applying machine learning techniques to concrete real world problems; Explains concepts used in Industry 4.0 platforms including the use and integration of AI, ML, Big Data, NLP, and the Internet of Things (IoT). It does not require prior knowledge of the machine learning. This book is meant to be an introduction to artificial intelligence, AI, machine learning, and its applications in Industry 4.0. It explains the basic mathematical principles but is intended to be understandable for readers who do not have a background in advanced mathematics.

**ICT Analysis and Applications** Simon Fong, Nilanjan Dey, Amit Joshi, 2022-11-05 This book proposes new technologies and discusses future solutions for ICT design infrastructures as reflected in high quality papers presented at the 7th International Conference on ICT for Sustainable Development (ICT4SD 2022) held in Goa, India on July 29-30, 2022. The book covers the topics such as big data and data mining, data fusion, IoT programming toolkits and frameworks, green communication systems, and network use of ICT in smart cities, sensor networks, and embedded system network and information security, wireless and optical networks, security, trust, and privacy, routing and control protocols, cognitive radio, and networks, and natural language processing. Bringing together experts from different countries, the book explores a range of central issues from an international perspective.

*Recent Evolutions in Energy, Drives and e-Vehicles* Nitin K. Dhote, Mohan Lal Kolhe, Minhaj Rehman, 2024-07-11 This volume comprises the select peer reviewed proceedings of the International Conference on Recent Evolutions in Energy, Drives and e-Vehicles (REED EV 2022). It aims to provide a comprehensive and broad spectrum picture of the state of the art research and development in the area of power and energy systems, grid integration, converter topology, electrification for transport industries, battery storage, and energy management systems, system protection, filters, and harmonics, among others. This volume will provide a valuable resource for those in academia and industry.

**Smart Technologies for Energy, Environment and Sustainable Development, Vol 1** Mohan Lal Kolhe, S. B. Jaju, P. M. Diagavane, 2022-02-25 This book contains select proceedings of the International Conference on Smart Technologies for Energy, Environment and Sustainable Development (ICSTEESD 2020). The book is broadly divided into the themes of energy, environment, and sustainable development and discusses the significance and solicitations of intelligent technologies in the domain of energy and environmental systems engineering. Topics covered in this book include sustainable energy systems including renewable technologies, energy efficiency, techno-economics of energy system, and policies, integrated energy system planning, environmental management, energy efficient buildings and communities, sustainable transportation, smart manufacturing processes, etc. The book will be a valuable reference for young researchers, professionals, and policy makers working in the areas of energy, environment, and sustainable development.

**Integrated Technologies**

**in Electrical, Electronics and Biotechnology Engineering** Gaurav Aggarwal, Ashutosh Tripathi, Himani Goyal Sharma, Tripti Sharma, Rishabh Dev Shukla, 2025-03-31 The conference was aimed to bring researchers practicing engineers faculty members and students from across the globe to a common platform to share their research ideas that would pave way to attain solution to various real time problems Many eminent researchers from different countries participated and interacted with the young students and budding researchers from various institutions The objective of this conference was to connect with junior and senior scholars working with educational architecture of the past present or future in the area of Semiconductor Devices Electronic Circuit Design Machine Vision Signal Processing Communication Technologies and Systems Electromagnetic RF Microwave Wearable Technology Nano Technologies IC Fabrication Biotechnology Automation Robotics Electrical Machines and Adjustable Speed Drives Renewable Energy Sources Smart grids Technologies Applications Key features included keynote presentations from renowned experts paper presentations showcasing novel research interactive panel discussions and exploring practical applications of emerging technologies **Laboratory and Field**

**Manual on Irrigation Engineering** R.J. Patel, 2019-06-10 The irrigation water is considered as the essential input for crop production Over exploitation of natural water resources has caused a menace for the future human generations The depletion of underground water table in high productivity areas and under utilization of the water resources in rain fed areas of the country poor irrigation efficiency and high seepage losses from conveyance system poor land development and mismanagement of the irrigation water resources has acquired alarming proportions As the share of water for agriculture in future is going to reduce there will be tremendous pressure to produce more per drop of water in order to meet the food and other requirements of burgeoning population of the country The existing irrigation water resources are not utilized judiciously and their mismanagement has lead to problems like low production efficiency salinization water logging and degradation of land To manage these problems and increase the production efficiency of irrigation it is pertinent to adopt judicious methods of irrigation water use by efficient on farm irrigation management based on scientific approach Therefore a comprehensive knowledge of available soil moisture and its constants scheduling and quality of irrigation water and proper drainage techniques is crucial This manual on irrigation engineering is an attempt to fulfil this urgent need as it covers all major aspects of irrigation water management Although manual is meant primarily for the students of agricultural universities yet it will provide valuable basic information and guide to the scientific community and field functionaries

**Decision Intelligence Analytics and the Implementation of Strategic Business Management** P. Mary Jeyanthi, Tanupriya Choudhury, Dieu Hack-Polay, T P Singh, Sheikh Abujar, 2022-01-01 This book presents a framework for developing an analytics strategy that includes a range of activities from problem definition and data collection to data warehousing analysis and decision making The authors examine best practices in team analytics strategies such as player evaluation game strategy and training and performance They also explore the way in which organizations can use analytics to

drive additional revenue and operate more efficiently The authors provide keys to building and organizing a decision intelligence analytics that delivers insights into all parts of an organization The book examines the criteria and tools for evaluating and selecting decision intelligence analytics technologies and the applicability of strategies for fostering a culture that prioritizes data driven decision making Each chapter is carefully segmented to enable the reader to gain knowledge in business intelligence decision making and artificial intelligence in a strategic management context **Smart Technologies for Energy, Environment and Sustainable Development, Vol 2** Mohan Lal Kolhe,S. B. Jaju,P. M. Diagavane,2022-02-17 This book contains select proceedings of the International Conference on Smart Technologies for Energy Environment and Sustainable Development ICSTEESD 2020 The book is broadly divided into the themes of energy environment and sustainable development and discusses the significance and solicitations of intelligent technologies in the domain of energy and environmental systems engineering Topics covered in this book include sustainable energy systems including renewable technologies energy efficiency techno economics of energy system and policies integrated energy system planning environmental management energy efficient buildings and communities sustainable transportation smart manufacturing processes etc The book will be a valuable reference for young researchers professionals and policy makers working in the areas of energy environment and sustainable development
