Through a broad range of case studies spanning from imperial monuments to rural residences Malayan Classicism puts forward a fundamentally new understanding of classical architecture in the Asian colonial context Across Malaysia and Singapore thousands of historic buildings are richly ornamented with motifs drawn from Ancient Greece and Rome as plump volutes lush acanthus leaves and neat rows of dentils decorate mosques palaces government buildings and innumerable terraced shophouses These classical details jostle with ideas drawn from other architectural traditions from across Asia in a style that is unique to the region Presenting the first comprehensive account of what was prior to World War II Malaya s most widespread architectural style Malayan Classicism explores how the classical architecture of the British Empire was transmitted translated and transformed in the hands of local builders and architects Addressing a critical gap in the scholarship this book charts the metamorphosis of an imperial language of power into a local vernacular style and provides a new way of reading classical architecture in a post colonial context that will be applicable throughout the Global South

The Secrets of Architectural Composition Nathaniel Cortland Curtis,2013-09-02 Well arranged logical and aptly illustrated this classic survey covers every aspect of the design process It addresses architectural principles as well as their practical application examining general questions of scale balance proportion and symmetry and presenting detailed treatments of doors windows walls stairways columns and other features Long acknowledged as a valuable resource for students and teachers alike this volume is unsurpassed in terms of the richness of its material and the consistency of its insights It was written by Nathaniel Cortlandt Curtis an influential designer and artist who served as the head of the Tulane School of Architecture Curtis illustrated his work with nearly 250 line drawings that depict architectural elements from a splendid variety of periods and settings from ancient Rome s temples and palaces to modern day hotels and museums of Paris and New York *Better By Design?* Paul L. Knox,2020-10 The design professions architecture city planning landscape architecture and urban design share a great deal in terms of intellectual antecedents professional ideals and praxis In particular they share a commitment to creating better cities whether at the scale of buildings neighborhoods or city regions But who decides what constitutes a good city and how should such an ideal be implemented In *Better by Design* Paul Knox explores the intellectual roots of the design professions showing how architects planners and other designers have traditionally interpreted their roles and implemented their ideas in cities across North America and the UK Drawing on his long record of research and award winning publications on the social production of the built environment Knox offers a

critical appraisal of their ultimate effectiveness in achieving the goal of creating and sustaining good cities *Origins, Imitation, Conventions* James S. Ackerman, 2002-03-29 Twelve studies by eminent art historian James S Ackerman This collection contains studies written by art historian James Ackerman over the past decade Whereas Ackerman's earlier work assumed a development of the arts as they responded to social economic political and cultural change his recent work reflects the poststructural critique of the presumption of progress that characterized Renaissance and modernist history and criticism In this book he explores the tension between the authority of the past which may act not only as a restraint but as a challenge and stimulus and the potentially liberating gift of invention He examines the ways in which artists and writers on art have related to ancestors and to established modes of representation as well as to contemporary experiences The origins studied here include the earliest art history and criticism the beginnings of architectural drawing in the Middle Ages and Renaissance Leonardo Da Vinci's sketches for churches the first in the Renaissance to propose supporting domes on sculpted walls and piers and the first architectural photographs Imitation refers to artistic achievements that in part depended on the imitation of forms established in practices outside the fine arts such as ancient Roman rhetoric and print media Conventions like language facilitate communication between the artist and viewer but are both more universal understood across cultures and more fixed resisting variation that might diminish their clarity The three categories are closely linked throughout the book as most acts of representation partake to some degree of all three **The Routledge Handbook on the Reception of Classical Architecture** Nicholas Temple, Andrzej Piotrowski, Juan Manuel Heredia, 2019-11-01 This is the first comprehensive study of the reception of classical architecture in different regions of the world Exploring the impact of colonialism trade slavery religious missions political ideology and intellectual artistic exchange the authors demonstrate how classical principles and ideas were disseminated and received across the globe By addressing a number of contentious or unresolved issues highlighted in some historical surveys of architecture the chapters presented in this volume question long held assumptions about the notion of a universally accepted classical tradition and its broadly Euro centric perspective Featuring thirty two chapters written by international scholars from China Europe Turkey North America Mexico Australia and New Zealand the book is divided into four sections 1 Transmission and re conceptualisation of classical architecture 2 Classical influence through colonialism political ideology and religious conversion 3 Historiographical surveys of geographical regions and 4 Visual and textual discourses This fourfold arrangement of chapters provides a coherent structure to accommodate different perspectives of classical reception across the world and their geographical ethnographic ideological symbolic social and cultural contexts Essays cover a wide geography and include studies in Italy France England Scotland the Nordic countries Greece Austria Portugal Romania Germany Poland India Singapore China the USA Mexico Brazil New Zealand and Australia Other essays in the volume focus on thematic issues or topics pertaining to classical architecture such as ornament spolia humanism nature moderation decorum heresy and taste An essential reference guide

The Routledge Handbook on the Reception of Classical Architecture makes a major contribution to the study of architectural history in a new global context

Play Among Books Miro Roman,Alice_ch3n81,2021-12-06 How does coding change the way we think about architecture This question opens up an important research perspective In this book Miro Roman and his AI Alice_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books Focusing on the intersection of information technology and architectural formulation the authors create an evolving intellectual reflection on digital architecture and computer science

Classical Taste in the Architectural World of Thomas Jefferson Alley Marie Jordan,2025-06-12 Reaching beyond politics and law this book focuses on Thomas Jefferson as an aesthetic classicist Jefferson embraced the influence of antiquity through his adoption of classical architecture in his Virginia residences in order to establish Rome as an ancestor to America In a time of significant political and cultural change he aligned himself with a Greco Romano legacy that represented knowledge power and art Alley Marie Jordan studies the architectural and landscape spaces of Jefferson s classical taste which include the villas of Monticello and Poplar Forest as well as the University of

Virginia An examination of these places exposes his deeply entrenched views of the importance of classics in Virginia and reveals them as expressions of admiration of classical antiquity Seeking to uncover an underexplored side of his character Jordan deconstructs his identity through a classical lens and illustrates his influence on American culture as well as his desire to reform it via the classics By dislodging Jefferson from American politics this study redefines his worldview and motivations for inventing an American virtue based on Horace's *utile dulci* Although his participation in acquiring classical taste was not unique for his time he did accomplish a unique aim with classicism the blending of the American landscape with classical culture to create a new American virtue
