Page 60 Classmate

- Well-being of a person.
- The state has a duty to promote the basic physical and material well-being of people in need.
- Due to the uneven distribution of wealth, welfare grants are provided for people to meet their basic needs.
- Improving welfare has both the effects of reducing poverty levels and increasing spending on basic food.
- The government provides merit goods and supplements the income of poor people.

Production subsidies

- Government encouraging suppliers to increase the production of goods.
- Partially compensating for costs or financial losses.
- Often given to suppliers of agricultural products such as milk, wheat and maize.
- Lower the cost of producing goods and thus the market price of these goods is lowered.

Reasons for Producer Subsidies

- To promote employment and entrepreneurship.
- To encourage the establishment of new businesses to help them in early stages of trading while they cannot compete effectively with more established businesses.

Effects of producer subsidies

- There will be an increase in the quantity demanded and supplied in the market.
- Prices will decrease and more consumers will be able to enjoy the goods.
- They create uncompetitive industries and these firms will not survive in the long-run, if there are no subsidies.
