web differential equation vasishtha in this chapter we will look at solving first order differential equations the most general first order differential equation can be written as as we university department of mathematics sido kanhu murmu university a r vasishtha partial differential equation

what are differential equations solving methods and examples - May 06 2022

web linear differential equation equation of form $dy/dx + p y = q$ linear differential equation a differential equation is linear if the dependent variable y and its derivative appear only in the first degree the general form of linear differential equation of first order is $dy/dx + p y = q$ here p

8 1 basics of differential equations mathematics libretexts - May 18 2023

web oct 18 2018 a differential equation is an equation involving an unknown function $y = f(x)$ and one or more of its derivatives a solution to a differential equation is a function $y = f(x)$ that satisfies the differential equation when f and its derivatives are substituted into the equation
