Carsten,Hsiao-Chiao Chiu,Siobhan Magee i,Eirini Papadaki ,Koreen M. Reece,2021-09-01 Marriage globally is undergoing profound change provoking widespread public comment and concern Through the close ethnographic examination of case studies drawn from Africa Asia Europe and North America Marriage in Past Present and Future Tense places new and changing forms of marriage in comparative perspective as a transforming and also transformative social institution In conditions of widespread socio political inequality and instability how are the personal the familial and the political co produced How do marriages encapsulate the ways in which memories of past lives present experience and imaginaries of the future are articulated Exploring the ways that marriage draws together and distinguishes history and biography ritual and law economy and politics in intimate family life this volume examines how familial and personal relations and the ethical judgements they enfold inform and configure social transformation Contexts that have been partly shaped through civil wars cold war and colonialism as well as other forms of violent socio political rupture offer especially apt opportunities for tracing the interplay between marriage and politics But rather than taking intimate family life and gendered practice as simply responsive to wider socio political forces this work explores how marriage may also create social change Contributors consider the ways in which marital practice traverses the domains of politics economics and religion while marking a key site where the work of linking and distinguishing those domains is undertaken *The Global Testing Culture* William C. Smith,2016-01-04 The past thirty years have seen a rapid expansion of testing exposing students worldwide to tests that are now more than ever standardized and linked to high stakes outcomes The use of testing as a policy tool has been legitimized within international educational development to measure education quality in the vast majority of countries worldwide The embedded nature and normative power of high stakes standardized testing across national contexts can be understood as a global testing culture The global testing culture permeates all aspects of education from financing to parental involvement to teacher and student beliefs and practices The reinforcing nature of the global testing culture leads to an environment where testing becomes synonymous with accountability which becomes synonymous with education quality Underlying the global testing culture is a set of values identified from the increasing literature on world culture These include education as a human right academic intelligence faith in science decentralization and neoliberalism Each of these values highlights different aspects of the dialogue in support of high stakes standardized testing The wide approval of these values and their ability to legitimate various aspects of high stakes testing reinforces the taken for granted notion that such tests are effective and appropriate education practices However a large body of literature emphasizes the negative unintended consequences teaching to the test reshaping the testing pool the inequitable distribution of school resources and teachers attention and reconstructing the role of the student teacher and parent commonly found when standardized census based tests are combined with high stakes outcomes for educators or students This book problematizes this culture by providing critical perspectives that challenge the assumptions of the culture and describe how the culture manifests in national contexts The

volume makes it clear that testing per se is not the problem. Instead it is how tests are administered, used or misused and linked to accountability that provide the global testing culture with its powerful ability to shape schools and society and lead to its unintended undesirable consequences. **Research & Teaching Aptitude Paper-I** YCT Expert Team, 2022-23 NTA UGC NET JRF Vol 1 Research Teaching Aptitude Paper I Chapter wise Solved Papers **Outclassed** Joan C. Williams, 2025-05-20 An eye opening urgent call to mend the broken relationship between college and non college grads of all races that is driving politics to the far right in the US. Is there a single change that could simultaneously protect democracy spur progress on climate change enact sane gun policies and improve our response to the next pandemic? Yes, changing the class dynamics driving American politics. The far right manipulates class anger to undercut progressive goals and liberals often inadvertently play into their hands. In *Outclassed* Joan C. Williams explains how to reverse that process by bridging the diploma divide while maintaining core progressive values. She offers college educated Americans insights into how their values reflect their lives and their lives reflect their privilege. With illuminating stories from the Portuguese admiral who led that country's COVID response to the lawyer who led the ACLU's gay marriage response and more, Williams demonstrates how working class values reflect working class lives. Then she explains how the far right connects culturally with the working class deftly manipulating racism and masculine anxieties to deflect attention from the ways far right policies produce the economic conditions disadvantaging the working class. Whether you are a concerned citizen committed to saving democracy or a politician or social justice warrior in need of messaging advice, *Outclassed* offers concrete guidance on how liberals can forge a multi racial cross class coalition capable of delivering on progressive goals. **Handbook of Religion and Society** David Yamane, 2016-07-15 The *Handbook of Religion and Society* is the most comprehensive and up to date treatment of a vital force in the world today. It is an indispensable resource for scholars, students, policy makers and other professionals seeking to understand the role of religion in society. This handbook includes 27 chapters by a distinguished, diverse and international collection of experts organized into 6 major sections: religion and social institutions, religious organization, family life, course and individual change, difference and inequality, political and legal processes and globalization and transnationalism. *Sexual Orientation, Gender Identity, and Schooling* Stephen Thomas Russell, Stacey S.
