**Cultural Urban Heritage** Mladen Obad Šćitaroci, Bojana Bojanić Obad Šćitaroci, Ana Mrđa, 2019-01-28 This book presents strategies and models for cultural heritage enhancement from a multidisciplinary perspective It discusses identifying historical current and possible future models for the revival and enhancement of cultural heritage taking into consideration three factors respect for the inherited contemporary and sustainable future development The goal of the research is to contribute to the enhancement of past cultural heritage renovation and enhancement methods improve the methods of spatial protection of heritage and contribute to the development of the local community through the use of cultural and in particular architectural heritage Cultural heritage is perceived primarily through conservation but that comes with limitations If heritage is perceived and experienced solely through conservation it becomes a static object It

needs to be made an active subject which implies life in heritage as well as new purposes and new life for abandoned heritage. Heritage can be considered as a resource that generates revenue for itself and for the sustainability of the local community. To achieve this it should be developed in accordance with contemporary needs and technological achievements but on scientifically based and professional criteria and on sustainable models. The research presented in this book is based on the approach of Heritage Urbanism in a combination of experiments, case studies and theory. Handbook of Research on Seismic Assessment and Rehabilitation of Historic Structures Asteris, Panagiotis G., Plevris, Vagelis, 2015-07-13. Rehabilitation of heritage monuments provides sustainable development and cultural significance to a region. The most sensitive aspect of the refurbishment of existing buildings lies in the renovation and recovery of structural integrity and public safety. The Handbook of Research on Seismic Assessment and Rehabilitation of Historic Structures evaluates developing contributions in the field of earthquake engineering with regards to the analysis and treatment of structural damage inflicted by seismic activity. This book is a vital reference source for professionals, researchers, students and engineers active in the field of earthquake engineering who are interested in the emergent developments and research available in the preservation and rehabilitation of heritage buildings following seismic activity. *The city trip guide for Kourou (French Guiana)* YouGuide Ltd,
