**Dambuster-in-Chief** Richard Mead,2020-12-30 A fascinating biography of one of the most important figures in Bomber Command during the Second World War History of War Ralph Cochrane was born in 1895 into a distinguished naval family After joining the Royal Navy he volunteered in 1915 to serve with the RNAS in airships and was an early winner of the Air Force Cross In 1918 he transferred to the fledgling RAF and learned to fly serving in Iraq as a flight commander under Bomber Harris His inter war career saw him as a squadron commander in Aden before he became the first Chief of Air Staff of the Royal New Zealand Air Force During the Second World War he served mainly in Bomber Command and commanded 5 Group from early 1943 He formed 617 Squadron and was instrumental in planning the legendary Dambuster Raid the most spectacular of the War as well as the sinking of the battleship Tirpitz An inspirational leader he trained 5 Group in low level target marking skills Post war Cochrane held a string of senior appointments commanding Transport Command Flying Training Command and finally as Vice Chief of Air Staff retiring in 1952 He died in 1977 A brilliantly researched biography of a fascinating fighter adds a new name to rank alongside Great Britain s most heroic warriors Argunners The Dambusters is one of my absolute favourite stories from WWII and this bio of Cochrane tells the story of an extraordinary man Brilliant Books Monthly

Eyewitness RAF James Goulty,2020-12-14 A detailed realistic picture of what it was like to serve in the Royal Air Force during WWII both on the ground and in the air using firsthand accounts Much has been written about the Royal Air Force during the Second World War memoirs biographies histories of Fighter and Bomber commands technical studies of the aircraft accounts of individual operations and exploits but few books have attempted to take the reader on a journey through basic training and active service as air or ground crew and eventual demobilization at the end of the war That is the aim of James Goulty s Eyewitness RAF Using a vivid selection of testimony from men and women he offers a direct insight into every aspect of wartime life in the service Throughout the book the emphasis is on the individual s experience of the RAF the preparations for flying flying itself the daily routines of an air base time on leave and the issues of discipline morale and motivation A particularly graphic section describes in the words of the men themselves what it felt like to go on operations and the impact of casualties airmen

who were killed injured or taken prisoner What emerges is a fascinatingly varied inside view of the RAF that is perhaps less heroic and glamorous than the image created by some postwar accounts but gives readers today a much more realistic appreciation of the whole gamut of life in the RAF seventy plus years ago

**Nature Prose** Dominic Head, 2022 Nature Prose seeks to explain the popularity and appeal of contemporary writing about nature This book intervenes in key areas of contemporary debate about literature and the environment and explores the enduring appeal of writing about nature during an ecological crisis Using a range of international examples with a focus on late twentieth and early twenty first century writing from Britain and the US Dominic Head argues that nature writing contains formal effects which encapsulate our current ecological dilemma and offer a fresh resource for critical thinking The environmental crisis has injected a fresh urgency into nature writing along with a new piquancy for those readers seeking solace in the nonhuman or for those looking to change their habits in the face of ecological catastrophe However behind this apparently strong match between the aims of nature writers and the desires of their readers there is also a shared mood of radical uncertainty and insecurity The treatment and construction of nature in contemporary imaginative prose reveals some significant paradoxes beneath its dominant moods moods which are usually earnest sometimes celebratory sometimes prophetic or cautionary It is in these paradoxical moments that the contemporary ecological crisis is formally encoded in a progressive development of ecological consciousness from the late 1950s onwards Nature prose fiction and nonfiction is now contemporaneous with a defining time of crisis while also being formally fashioned by that context This is a mode of writing that emerges in a world in crisis but which is also in some ways in crisis itself With chapters on remoteness exclusivity abundance and rarity this book marks a turning point in how literary criticism engages with nature writing

**The Relentless Offensive** Roy Irons, 2009-06-25 During the years before World War II the Royal Air Force created amid the bloodshed of the Great War saw salvation in the doctrine of a relentless offensive by a bomber force which would sail over trenches and then on to the enemy cities and annihilate the ability of the enemy to wage war This book gives a view of how that doctrine driven by courage and coldly sharpened by scientists brought those visions to reality This is a fresh analysis of Bomber Command its tactics and technology It discusses exactly how well organised Bomber Command was to exploit the rapidly evolving new science and technology of new type of warfare How much did the concept of Allied and German morale influenced the Commands operational plans What was the influence of the Research and Experiments Dept of the Ministry of Home Security and of university scientists such as Tizard and Cherwell This book delves into the research into high explosives and firebombing techniques newly designed bombs and their devastating effect on the enemy Why in the early war days was the RAF bombers armament so ineffective the navigation so imprecise and the bombing accuracy so poor This book also discusses the many varying moral issues that even to this day still rage between those who feel guilt for the destruction of so many German cities and those who see moral justification in the eventual Allied victory

**Naval Aviation News** , 1982-11 **Powering the**

**Luftwaffe** Jason R. Wisniewski, 2013-04 Aviation technology progressed by leaps and bounds during the late 1930s and early 1940s. Although much of this was due to advances in airframe design, much less appreciated is the role of aero engine development. This book focuses on this aspect, particularly German piston aero engine design and development, which has been generally under researched and under published compared to Allied piston aero engines. It covers key piston aero engines such as those produced by Daimler Benz, BMW and Junkers, as well as less well appreciated engines such as those produced by Siemens, Argus and Hirth. It also covers turbojets and rockets, particularly the Junkers Jumo 004 and Walter 109 509 that powered the infamous Messerschmitt Me 262 and Me 163 jet and rocket fighters. Finally, the book concludes with tables comparing Allied and German piston engines, a glossary of key terms and a bibliography.

**Soldiers of God** Robert D. Kaplan, 2008-12-24 First time in paperback with a new Introduction and final chapter. World affairs expert and intrepid travel journalist Robert D. Kaplan braved the dangers of war-ravaged Afghanistan in the 1980s, living among the mujahidin, the soldiers of God, whose unwavering devotion to Islam fueled their mission to oust the formidable Soviet invaders. In *Soldiers of God*, we follow Kaplan's extraordinary journey and learn how the thwarted Soviet invasion gave rise to the ruthless Taliban and the defining international conflagration of the twenty-first century. Kaplan returns a decade later and brings to life a lawless frontier. What he reveals is astonishing: teeming refugee camps on the deeply contentious Pakistan-Afghanistan border; a war front that combines primitive fighters with the most technologically advanced weapons known to man; rigorous Islamic indoctrination academies; a land of minefields plagued by drought, fierce tribalism, insurmountable ethnic and religious divisions; an abysmal literacy rate; and legions of war orphans who seek stability in military brotherhood. Traveling alongside Islamic guerrilla fighters, sharing their food, observing their piety in the face of deprivation, and witnessing their determination, Kaplan offers a unique opportunity to increase our understanding of a people and a country that are at the center of world events.
