Women and Citizenship Marilyn Friedman,2005-10-27 The notion of citizenship is complex it can be at once an identity a set of rights privileges and responsibilities an elevated and exclusionary status a relationship between individual and state and more In recent decades citizenship has attracted interdisciplinary attention particularly with the transnational growth of Western capitalism Yet citizenship s relationship to gender has gone relatively unexplored despite the globally pervasive denial of citizenship to women historically and in many places ongoing today This highly interdisciplinary volume explores the political and cultural dimensions of citizenship and their relevance to women and gender Containing essays by a well known group of scholars including Iris Marion Young Alison Jaggar Martha Nussbaum and Sandra Bartky this book examines the conceptual issues and strategies at play in the feminist quest to give women full citizenship status The contributors take a fresh look at the issues going beyond conventional critiques and examine problems in the political and social arrangements practices and conditions that diminish women s citizenship in various parts of the world **Education of the Young Child**

Mr. Rohit Manglik,2023-03-23 Covers early childhood learning theories and practices **A Learning Community of Reflective Teachers** Neeraja Raghavan,2024-02-06 Teachers possess a wealth of untapped wisdom and valuable experience Be it educational policy curriculum development or textbook selection rare are the instances when teachers views are solicited Traditionally teacher development has been driven by administrators of schools and it often takes the form of a mentor teaching the staff of a school But what happens when teachers across different locations collaborate and learn together This volume documents such an initiative sparked off by the Covid 19 pandemic which brought people together online It showcases the power of teachers debating discussing and learning from each other Based on an Indian experience this book addresses a range of issues that teachers and educators across the world face encompassing pedagogy classroom management school culture and teacher development A unique story of community building and teacher education this book also contains key outcomes and insights while taking us through their action research projects It showcases a model of teacher development that can be adopted by interested readers anywhere in the world Above all it brings out the crying need for a teacher s voice to be heard for far too long teachers have been mere implementers of decisions taken by policymakers or managements of schools By means of networking communities such as the one described in this book the transformation of teachers going from whispers to resonance is greatly amplified An important intervention in the domain of teacher

development this volume will be of great interest to students researchers educators teacher educators and sociologists of education It will also be useful for teacher trainees academicians policymakers schoolteachers curriculum developers teacher training institutes and universities offering teacher education programmes
