The Impact of the Presidency of Donald Trump on American Jewry and Israel Steven F. Windmueller, 2021-12-15 The Trump presidency has resulted in a fundamentally disruptive moment in this nation's political culture. Not only were there different policy options and directions but the cultural artifacts of politics changed because of how this president dramatically challenged the existing norms of political behavior and action. As we have shifted from a period of American liberalism to a time of political populism, deep fissures are dividing Americans in general and Jews in particular. The Impact of the Presidency of Donald Trump on American Jewry and Israel unpacks President Donald Trump's distinctive and unique relationship with the American Jewish community and the State of Israel. Addressing the various dimensions of his personal and political connections with Jews and Israel, this publication is designed to provide an assessment of how the Trump presidency has influenced and altered American Jewish political behavior. Writers from different backgrounds and political orientations bring a broad range of perspectives designed to examine various aspects of this presidency including Trump's particular impact on Israel-US relations, his special connection with Orthodox Jews and his complex and uneven relationship with Jewish Republicans. For liberal American Jews, these four years represented a fundamental revolution overturning and challenging much that a generation of activists had fought to achieve and protect. For Trump's supporters, it afforded them an opportunity to advance their priorities while joining the forty-fifth president in changing the American political landscape. The Trump effect will extend well beyond his four-year tenure, creating an environment that has fomented the politics of hate and exposed a deeply embedded presence of anti-Semitism. How Americans understand this moment in time and the ways society will adapt can be reflected through the prism of the Jewish encounter with Trumpism that this volume seeks to explore.

Poultry Success ,1915 *Christopher Walken A to Z* Robert Schnakenberg,2014-09-30 The Complete Guide To All Things Walken He s been a dancer a baker a lion tamer an award winning actor and a Hollywood legend But Christopher Walken has never been the subject of a comprehensive biographical reference until now Here at last is a complete A to Z guide to this one of a kind performer featuring entries on everything from the Actors Studio the legendary theatrical workshop where Walken spent eleven years as a janitor to Zombie Movies one of Walken s favorite film genres Along the way readers will discover Acting secrets and behind the scenes trivia from each of Walken s 100 films everything from Annie Hall to Hairspray and beyond Recipes and kitchen tips from Chef Walken including a look at his short lived TV show Cooking with Chris Walken s music videos for Madonna Duran Duran and Fatboy Slim The secrets of maintaining his extraordinary hair Observations and reminiscences from Steven Spielberg Quentin Tarantino Tim Burton Woody Allen Dennis Hopper and countless others Plus more bizarre B movies and Saturday Night Live appearances than you can shake a cowbell at Complete with fascinating trivia and dozens of photographs Christopher Walken A to Z offers the definitive look at a pop culture phenomenon *Beyond open access: visions for open evaluation of scientific papers by post-publication peer review* Nikolaus Kriegeskorte,Diana Deca, A scientific publication system needs to provide two basic services access and evaluation The traditional publication system restricts the access to papers by requiring payment and it restricts the evaluation of papers by relying on just 2 4 pre publication peer reviews and by keeping the reviews secret As a result the current system suffers from a lack of quality and transparency of the peer review evaluation process and the only immediately available indication of a new paper s quality is the prestige of the journal it appeared in Open access is now widely accepted as desirable and is slowly beginning to become a reality However the second essential element evaluation has received less attention Open evaluation an ongoing post publication process of transparent peer review and rating of papers promises to address the problems of the current system However it is unclear how exactly such a system should be designed The evaluation system steers the attention of the scientific community and thus the very course of science For better or worse the most visible papers determine the direction of each field and guide funding and public policy decisions Evaluation therefore is at the heart of the entire endeavor of science As the number of scientific publications explodes evaluation and selection will only gain importance A grand challenge of our time therefore is to design the future system by which we evaluate papers and decide which ones deserve broad attention So far scientists have left the design of the evaluation process to journals and publishing companies However the steering mechanism of science should be designed by scientists The cognitive computational and brain sciences are best prepared to take on this task which will involve social and psychological considerations software design and modeling of the network of scientific papers and their interrelationships This Research Topic in Frontiers in Computational Neuroscience collects visions for a future system of open evaluation Because critical

arguments about the current system abound these papers will focus on constructive ideas and comprehensive designs for open evaluation systems Design decisions include Should the reviews and ratings be entirely transparent or should some aspects be kept secret Should other information such as paper downloads be included in the evaluation How can scientific objectivity be strengthened and political motivations weakened in the future system Should the system include signed and authenticated reviews and ratings Should the evaluation be an ongoing process such that promising papers are more deeply evaluated How can we bring science and statistics to the evaluation process e g should rating averages come with error bars How should the evaluative information about each paper e g peer ratings be combined to prioritize the literature Should different individuals and organizations be able to define their own evaluation formulae e g weighting ratings according to different criteria How can we efficiently transition toward the future system Ideally the future system will derive its authority from a scientific literature on community based open evaluation We hope that these papers will provide a starting point
