Skills for Midwifery Practice Australian & New Zealand Edition Sally-Ann De-Vitry Smith,Sara Bayes,2022-02-28 This text provides clear easy to read guidance on more than 110 skills for midwifery students and midwives seeking to update their practice Underpinned with the most recent evidence based practice and research the second edition walks the reader through general and basic skills in a sequential and logical manner following a woman s journey through pregnancy labour and birth and postnatal care With a focus on the performance of midwifery skills rather than on the theory of midwifery practice Skills for Midwifery Practice Australia and New Zealand 2nd edition is an indispensable text to which students will return to again and again Endorsed by the Australian College of Midwives Step by step instructions for each skill Images and diagrams to aid understanding A woman centred approach and cultural considerations throughout Models of midwifery care

Continuity of Care and Lead Maternity Carer s Model Australian NZ specific guidelines policies statistics terminology and medication administration guidelines **Pediatric Hypertension** Joseph T. Flynn,Julie R. Ingelfinger,Tammy M. Brady,2023-01-09 For the past 17 years Pediatric Hypertension has served as the definitive reference text on hypertension in children and adolescents Each edition has incorporated the latest research on the pathophysiology clinical significance and management of hypertension in the young and has incorporated the most current consensus guidelines on diagnosis and management The years since publication of the fourth edition have seen further advances in the field that merit publication of an updated expanded text including Analysis of the implications of updated hypertension guidelines on identification of youth at highest cardiovascular risk Additional data on the proximate effects of high blood pressure in children in adolescents Further understanding of the links between high blood pressure in youth and surrogate markers of adult cardiovascular disease The fifth edition is a readable informative text that provides a comprehensive guide to the diagnosis management and therapy of hypertension in children and adolescents and presents new data that very clearly indicate that the origins of adult cardiovascular disease are rooted in pediatric hypertension It will as a result be very important for therapeutic decisions and will also be highly relevant for those in internal medicine who care for the millions of adults who have hypertension cardiovascular disease and kidney disease In this sense the book fulfills the longstanding goal of showing that hypertension that begins in childhood is important to track diagnose and treat and that the present understanding of adult hypertension necessitates the study of blood pressure in youth The fifth edition has a similar structural format to the prior editions and covers all aspects of pediatric hypertension from basic science research to the most recent clinical information

Transgender and Intersex: Theoretical, Practical, and Artistic Perspectives Stefan Horlacher,2016-11-09 This book takes both transgender and intersex positions into account and asks about commonalities and strategic alliances in terms of knowledge theory philosophy art and life experience It strikes a balance between works on literature film photography sports law and general theory bringing together humanistic and social science approaches Horlacher adopts a non hierarchical perspective and asks how transgender and intersex issues are conceptualized from a variety of different viewpoints and to what extent artistic and creative discourses offer their own uniquely relevant forms of knowledge and expression CAA2014: 21st Century Archaeology F. Giligny,F. Djindjian,L. Costa,2015-03-31 This volume brings together a selection of papers proposed for the Proceedings of the 42nd Computer Applications and Quantitative Methods in Archaeology conference CAA hosted at Paris 1 Pantheon Sorbonne University from 22nd to 25th April 2014 Norm Clusters of Non-State Armed Groups Will Jamison Wright,2023-12-01 The proliferation of non state armed groups and non international armed conflicts since the end of the Second World War has challenged the legal frameworks which govern conduct in armed conflict While aspects of international humanitarian law apply to such conflicts international law can only go part of the way to explaining behaviour by armed groups This book seeks to refocus discussion on the limits to armed

conflict in such settings by examining the norms that underpin international humanitarian law as espoused by these armed groups to give a clearer picture as to the collectively constructed appropriateness of certain behaviours in or limits to warfare The specific research question is What are the norms of armed conflict as identified by non state armed groups Using Winston s norm cluster model this study seeks to examine and map the ideations and behavioural prescriptions that constitute the armed conflict norm cluster as defined by non state armed groups To do this it utilises a qualitative content analysis of documents from non state armed groups coded to identify the different elements of this norm cluster as well as the frequency pervasiveness and connections between these elements The findings showed that while international humanitarian law is universal these norms limiting armed conflict are not with no norm being seen across all contexts examined Core norms of international humanitarian law especially those supported by norm entrepreneurs were seen to be the focus of sub clusters and the emergence of new parts of the norm cluster could be observed over time The findings suggest that further work with the conceptualisation of limits to armed conflict as norms could be useful in improving the embeddedness of norms amongst non state armed groups and could be useful in reconceptualising limits to armed conflict in cases where broadly accepted norms face growing contestation
