Negotiating Structural Vulnerability in Cancer Control Julie Armin, Nancy J. Burke, Eichelberger Laura, 2019-03-01
What can case studies about the lived experiences of cancer contribute to an interest in the concept of structural vulnerability And can a consideration of structural vulnerability enhance applied anthropological work in cancer prevention and control To answer these questions the contributors in this volume explore what it means to be structurally vulnerable how structural vulnerabilities intersect with cancer risk diagnosis care seeking caregiving clinical trial participation and survivorship and how differing local national and global political contexts and histories inform vulnerability These case studies illustrate how quotidian experiences of structural vulnerability influence and are altered by a cancer diagnosis at various points in the continuum of care In examining cancer as a set of diseases and biosocial phenomena the contributors extend structural vulnerability beyond its original conceptualization to encompass spatiality temporality and biosocial shifts in both individual and institutional arrangements Proceedings of the 7th International Conference on Geotechnics, Civil Engineering and Structures, CIGOS 2024, 4-5 April, Ho Chi Minh City, Vietnam Cuong Ha-Minh, Cao Hung Pham, Hanh T. H. Vu, Dat Vu Khoa Huynh, 2024-05-31 This book includes peer reviewed articles from the 7th International Conference on Geotechnics Civil Engineering and Structures CIGOS 2024 held on April 4 5 in Ho Chi Minh City Vietnam It highlights recent advances in planning architecture and construction for sustainable development The book features a compilation of articles presented at the conference bringing together researchers academics and practitioners from around the world The topics covered range from Planning Architecture and Industrial Design to Construction Materials Structures and Digital Technologies as well as Geoscience Environment and Energy and Transportation Infrastructure Management and Investment The book emphasizes the importance of a multidisciplinary approach to sustainable development in order to address environmental social and economic challenges faced by societies worldwide It provides insights into best practices and innovative approaches for achieving sustainable development goals such as reducing the carbon footprint enhancing energy efficiency promoting the use of eco friendly materials and implementing sustainable construction techniques Overall this book offers valuable knowledge and advice to professionals researchers and policymakers engaged in sustainable development initiatives Dogmas in Literature and Literary Missionary: Text, Reader and Critique Önder Çakırtaş, 2023-10-17 Literature does have an aspect that drags the readers habitually burying them in its pages and blindly attaching them to itself Blind devotion stems from the factors that are effective in determining the readers faith Theories of literature similarly might bring about the generation of blind adherence and dogmatic approaches This book explores the existence of dogma in literature and some cult texts and writers and how dogmas in literature are conveyed to various audiences as a mission by some literary readers experts and academics Generally dogma is a word related mostly to religion In this frame Mathew Arnold s Dogma in Religion and Literature is of great importance as far as religion is concerned

However there are dogmas in every field literature being no exception Virginia Woolf for instance wrote stupendous works that turned out to be well known and in 1928 she delivered a lecture at Cambridge University where women were once not allowed that formed the basis for the celebrated *A Room of One's Own* 1929 Roland Barthes 1967 *La mort de l'auteur* The Death of the Author essay might be another text that some of its literary readers have developed a dogmatic commitment to In addition to revealing how dogma finds its place in literature this book also discusses how literary writers and readers often unwittingly embrace literary missionary Focusing on the dogmatic elements of literature and the dogmatized literary theory and criticism through cult works of various authors the book offers a striking and interesting contribution to literary theory and criticism and literature readings *Interactive Feedbacks between Soil Fauna and Soil Processes* Maria Luz Cayuela, Julia Clause, Jan Frouz, Philippe C. Baveye, 2020-03-30 Soil fauna plays a significant role at all trophic levels of the soil food web and regulates processes that are crucial for soil functioning such as nutrient cycling immobilization and or degradation of toxic compounds formation of soil structure greenhouse gas emissions and C turnover Although soil fauna is not thought to contribute significantly to soil respiration during litter or soil organic matter SOM decomposition the diversity of soil fauna has been found to strongly influence SOM distribution and dynamics Yet the functional contribution of soil fauna to many soil processes is not well understood due to methodological limitations and the high complexity of interactions at various spatiotemporal scales In general soil fauna has received far less scientific attention than bacteria and fungi and lately archaea in soil studies and has been regularly ignored in global biogeochemical models with maybe exceptions for some earthworms However recent studies are raising the awareness of the influence of soil fauna on ecosystems dynamics For instance earthworms have been found to be major players in N₂O emissions from soils They exert a strong influence on C stabilization and they promote the degradation of polycyclic aromatic hydrocarbons PAHs Less studied ants and termites have been found to increase crop productivity in drylands and different lifeforms of Collembola have been shown to impact microorganisms in various ways over time thereby potentially affecting C and N cycles within farming systems The influence of soil fauna indeed manifests over a broad ranges of spatiotemporal scales For example some effect such as aggregate formation may cumulate over time and finally contribute to the formation of whole soil profiles which serve as a framework for other soil processes such as water movement decomposition etc Meanwhile soil biodiversity is impacted by an increasing human pressure through deforestation agriculture intensification habitat fragmentation or climate change increasing temperatures extreme weather events which leads to soil biodiversity loss in particular of soil fauna with associated consequences on soil functioning and resilience **Aging and the Family** Patricia Neff Claster, Sampson Lee Blair, 2021-02-25 This collection makes a crucial contribution by collating research on aging and the family from an international perspective Providing this wide scope of quality research the volume equips readers to better assess how aging and its related issues are affecting families from multiple backgrounds [Afghanistan](#) Musa Khan Jalalzai, 2021-02-01

Writers and analysts have uncovered the illegal role of private militias commanders in Afghanistan These commanders and self styled leaders were driven overwhelmingly by their personal power and they were not only considered illegitimate on the domestic political scene and viewed as irrelevant The present Afghan government is a mix of all types of its efforts including war criminals and militia commanders who smuggle narcotics drugs arm and kill women and children War criminals and militias commanders have developed complex survival and legitimization strategies beyond their territorial realms After years of its establishment the Afghan local police ALP was undermined due to its failure to stabilize remote regions of the country The US proxy militias are the source of consternation The US Army established an incompetent intelligence agency NDS to serve its interest The NDS established regional militias to support the CIA and Pentagon war mission against the people of the country The NDS established Unit 01 for Central Region Unit 02 for Eastern Region Unit 03 for Southern Region and Unit 04 as a Khost Protection Force KPF and committed war crimes in these regions with the support of the US Army and CIA This book has documented the role of all internal and external actors warlords and stakeholders *Fascism, the War, and Structures of Feeling in Italy, 1943-1945* Simonetta Falasca-Zamponi,2023 By bringing to life the cultural imaginaries and practices of the past Fascism the War and Structures of Feeling in Italy 1943 1945 raises ostensibly intractable questions on the epochal impact of what often appears as inconsequential the typically unseen and seemingly banal power of everyday experiences The Political Economy of Chinese FDI in Africa Ayalew Mamo,2024-12-27 This book provides unique insight into Chinese foreign direct investment FDI in Africa With a particular focus on Ethiopia it examines the impact of FDI on Africa s industrial and manufacturing sector and the potential for productive FDI to advance industrialisation and create jobs for a large and young labour market The creation of government policies and an institutional framework for the management of FDI is also examined alongside lessons that can be learnt from policies that were less successful This book offers a comparative perspective on FDI to highlight the forms of government intervention that maximise the economic benefits of FDI It will be relevant to students researchers and policymakers interested in development economics and the political economy Policy Work and Politicisation in the Ministries of the Czech Republic: The Dilemmas of State Service Jan Kohoutek,2024-03-01 Over the past thirty years the Czech public administration has been the subject of research rooted in law economics and history However only minimal attention has been paid to what Czech public officials actually do on the job policy work and the extent of politically motivated interference in their work politicisation This book aims to fill this gap by presenting the evidence derived from a large N survey of the Czech ministries the first of its kind in the country The findings presented in the book offer new insights into the activities within the ivory towers of the Czech ministries and defy popular notions of an appallingly politicised bureaucracy **Africana Linguistica** ,2017 **Institutional setting for nature-based solutions and REDD+ policies and projects in Viet Nam** Pham, T.T.,Vu, T.P.,Nguyen, T.M.L.,Hoang, T.L.,Trần Ngọc, M.H.,2022-07-30 **Africa's Economic Partnership with China** Mussie Delelegn Arega,2022-11-30 This

book examines how increasing Africa China relations in the fields of trade development finance and investment have impacted productive capacities and structural economic transformation in sub Saharan Africa SSA The book argues that statistical and empirical evidence shows that China s influence has not substantially altered the fundamentals in Africa and instead outlines a framework of policy conclusions and recommendations to help achieve transformational growth and development Despite increased Chinese investments in transport energy communications and manufacturing sub Saharan Africa is yet to see tangible economic and development benefits according to the multidimensional Productive Capacities Index PCI External trade is dogged by the same problems as during the colonial era with primary commodities dominating exports to China and industrial or manufacturing products dominating imports thereby leaving the region exposed to external economic shocks The book considers whether there are lessons to be learned from the experience of Asian countries such as Vietnam proposing pragmatic coordinated non ideological and non confrontational policy approaches to development This book will be of interest to researchers policymakers advisors academics and practitioners with an interest in development in Africa and China s increasing role in the continent
