**From Southern Theory to Decolonizing Sociolinguistics** Ana Deumert, Sinfree Makoni, 2023-07-07 This book which combines scholarly articles with interviews seeks to imagine a decolonized sociolinguistics. All the chapters are firmly grounded in southern approaches to knowledge production focusing not only on epistemology but also on the complex relationship between epistemology and ontology. The chapters address issues ranging from author positionality to the central theorists of a southern sociolinguistics and roam from the language classroom to the church in ways which invite us to begin to decolonize ourselves and rethink normative assumptions about everything from academic writing to research methods and language teaching. The book provides scholars and teachers with inspiration for how to teach linguistics in ways that challenge colonial hegemonies and that allow one to do sociolinguistics otherwise. It also makes a powerful argument that debates about decolonization, southern theory and social justice are not just academic pursuits; what is at stake is our future and how we imagine it.

***Lawyers in 21st-Century Societies*** Richard L. Abel, Ole Hammerslev, Hilary Sommerlad, Ulrike Schultz, 2020-04-02 The world's legal professions have undergone dramatic changes in the 30 years since publication of the landmark three-volume *Lawyers in Society* which launched comparative sociological studies of lawyers. This is the first of two volumes in which scholars from a wide range of disciplines, countries and cultures document and analyse those changes. The present volume presents reports on 46 countries with broad coverage of North America, Western Europe, Latin America, Asia, Australia, North Africa and the Middle East, sub-Saharan Africa and former communist countries. These national reports address the impact of globalisation and neoliberalism on national legal professions, the relationship of lawyers and their professional associations to the state and tensions between state and citizenship, changes in lawyer demography, rapidly growing numbers and the profession's efforts to retain control, the entry of women and obstacles to full gender equality, ethnic diversity, legal education, the proliferation of institutions and pedagogic innovation, the regulation of lawyers' structures of production, especially the growth of large firms and the impact of technology and paraprofessionals, the distribution of lawyers across roles and access to justice, state-funded legal aid and pro bono services. The juxtaposition of the reports reveals the dramatic transformations of professional rationales, labour markets and working practices and the multiple contingencies of the role of lawyers in societies experiencing increasing juridification within a new geopolitical order.

Legitimacy in Peacebuilding  
Franziska Zanker, 2017-09-13 The book offers a critical analysis of legitimacy in peacebuilding with a focus on peace negotiations and civil society participation in particular The aim of this book is to unpack the meaning of legitimacy for the population in peacebuilding processes and the relationship this has with civil society involvement There is a growing consensus for addressing local concerns in peacebuilding with the aim of ensuring local ownership Moreover scholars have noted a relationship between civil society inclusion in peace negotiations and legitimacy Yet the very idea of legitimacy remains a black box Using data from original empirical fieldwork including over 100 semi structured interviews and 12 focus group discussions the book focuses on two case studies of negotiations that respectively ended a long civil war in Liberia in 2003 and ended the post election violence in Kenya in 2008 It argues that civil society involvement is conceptually insufficient to show a multidimensional understanding of legitimacy Instead the book shows a complex picture of legitimate peace negotiations based on outcome and participation based characteristics with the involvement of both guarantors of legitimacy and a more general civic agency which includes the general population Through forms of participative communication the passive audience become active stakeholders in the construction of legitimacy This has repercussions for how we think about civil society and peacebuilding more generally This book will be of much interest to students of
