*Stakeholder Perspectives on Priorities for the Quadrennial Homeland Security Review* United States. Congress. House. Committee on Homeland Security. Subcommittee on Oversight and Management Efficiency, 2014      Globalization and Animal Law Thomas G. Kelch, 2017-05-01

The rise of the globalized economy has rendered an even more profound change in the relationship between humans and other animals than the ancient progression from huntergatherer to agricultural society. In today's global markets multinational corporations exploit the economic value of animals throughout the world on an unprecedented scale. The philosophical and legal notions that animals are mere unfeeling machines or pieces of property although more or less taken for granted for centuries has been challenged if not burst asunder in recent decades in law moral philosophy and cognitive and other sciences and regulation of the treatment of animals in agriculture experimentation entertainment and other areas has begun to make substantial inroads in national and international law. This book provides a detailed analysis of international and comparative animal law focusing on the impact of today's globalized economy on animal law. Describing a wide range of domestic and international laws relating to the treatment of animals the author explicates the sorts of legal rules which affect the global animal marketplace. Representative norms in existing animal protection laws are analyzed and critiqued illustrating the diverse approaches taken by different countries and by the international community in regulating uses of animals. Among the issues covered are the following: contemporary philosophical thought on the relationship between humans and animals; recent scientific research relating to cognitive and other abilities of animals; legal issues relating to factory farming and animal slaughter; legal protection of animals during transport; regulatory schemes on animal experimentation; laws on the use of animals in entertainment; laws on protection of companion animals; regulation of trade in endangered species; international trade issues relating to animals including consideration of the provisions of GATT and the seminal WTO GATT decisions in the Tuna Dolphin Shrimp Turtle Tuna Labeling and EU Seal Products cases; constitutional protection for the interests of animals; intellectual property law issues relating to animals; efforts to have the legal personhood of certain animals judicially recognized and what the future may hold for animal law in the global economy. To ensure the consideration of a full range of legal approaches the laws analyzed come from a wide variety of countries and jurisdictions including Australia Austria Brazil Canada the EU Germany India Ireland New Zealand Switzerland the UK and state and federal laws of the US. Numerous international treaties and conventions relevant to animal treatment and animal law are also covered including the Berne Convention for the Protection of Literary and Artistic Works the CITES Convention the European Convention for the Protection of Animals Kept for Farming Purposes the European Patent Convention the GATT Treaty the TRIPS Agreement and the Universal Copyright Convention. It is not difficult to grasp given the continuing increases in production consumption and use of animals and animal products worldwide that legal initiatives in this often emotional and acrimonious area of law are frequently contentious and hard fought. But this is really just the dawn of animal

law which has only recently become recognized as an important cutting edge topic and this area of the law promises to develop rapidly in the future This book is enormously valuable in contributing to the continuing development and understanding of this law clearly laying out the contours and boundaries of existing animal laws in our global economy and allowing legal educators concerned lawyers and policymakers to teach formulate proposals argue cases and defenses and secure a firm purchase on future trends and developments in animal law

*Against the Deportation Terror* Rachel Buff,2018 Despite being characterized as a nation of immigrants the United States has seen a long history of immigrant rights struggles In her timely book *Against the Deportation Terror* Rachel Ida Buff uncovers this multiracial history She traces the story of the American Committee for the Protection of the Foreign Born ACPFB from its origins in the 1930s through repression during the early Cold War to engagement with new Latinx and Caribbean immigrants in the 1970s and early 1980s Functioning as a hub connecting diverse foreign born communities and racial justice advocates the ACPFB responded to various ongoing crises of what they called the deportation terror Advocates worked against repression discrimination detention and expulsion in migrant communities across the nation at the same time as they supported reform of federal immigration policy Prevailing in some cases and suffering defeats in others the story of the ACPFB is characterized by persistence in multiracial organizing even during periods of protracted repression By tracing the work of the ACPFB and its allies over half a century *Against the Deportation Terror* provides important historical precedent for contemporary immigrant rights organizing Its lessons continue to resonate today

*Living by the Gun in Chad* Marielle Debos,2016-10-15 How do people live in a country that has experienced rebellions and state organised repressions for decades and that is still marked by routine forms of violence and impunity What do combatants do when they

are not mobilised for war Drawing on over ten years of fieldwork conducted in Chad Marielle Debos explains how living by the gun has become both an acceptable form of political expression and an everyday occupation Contrary to the popular association of violence and chaos she shows that these fighters continue to observe rules frontiers and hierarchies even as their allegiances shift between rebel and government forces and as they drift between Chad Libya Sudan and the Central African Republic Going further she explores the role of the globalised politico military entrepreneurs and highlights the long involvement of the French military in the country Ultimately the book demonstrates that ending the war is not enough The issue is ending the inter war which is maintained and reproduced by state violence Combining ethnographic observation with in depth theoretical analysis *Living by the Gun in Chad* is a crucial contribution to our understanding of the intersections of war and peace
