

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Education and Society in the Middle East and North Africa Milton George,S. Sergio Saleem Scatolini,2020-01-17 In the past the Middle East and the so called Muslim world used to be beacons of learning and critical thought Although historical variables such as conquest internal conflict and colonization demoted their position on the global stage changes are now in the offing In these interesting times a growing number of educators thinkers and visionaries are trying both to find and to generate new approaches to the past present and future of the region This book is a collection of articles which reflect on various aspects related to education and society in the Middle East and North Africa also known as the MENA region their peoples and educational processes It provides a platform for people to join the global conversation and to contribute to it with data which are relevant to regional concerns research and practices This is necessary because many of the theories and research findings which are still being used to understand the region were generated elsewhere and despite their lack of regional representativeness were generalized as the most trustworthy interpretive tools across the world Hence there is a need for the world to open up to the voices from the MENA region

Participatory archives in a world of ubiquitous media
Natalie Pang, Kai Khiun Liew, Brenda Chang, 2017-10-02 The media environment of today is characterised by two critical factors the development and adoption of ubiquitous mobile devices and the strengthening of connectivity enabled by advances in ICT infrastructure and social media platforms These developments have changed interactions and relationships between citizens and cultural custodians as well as the ways archives are developed kept and used Archives are now characterised by greater socialisations and networks that actively contribute to the signification of cultural heritage value A range of new stakeholders many of whom include the public have sought to define what needs to be collectively remembered and forgotten The world in which one or a few professional archivists worked on the sole mission of shaping how a society remembers is being displaced by a more democratised culture and the new generation of digitally networked archivists that are its natives Using a range of case studies and perspectives this book provides insights to the many ways that ubiquitous media have influenced archival practices and research as well as the social and civic consequences of present day archives This book was published as a special issue of *Archives and Manuscripts*
