Europe Faces Revolution Guided Answers:

Study Guide Mark Kishlansky, 2002-01-04 Roads Not Taken Alexander Etkind, 2018-04-26 A journalist diplomat and writer William Christian Bullitt 1891 1967 negotiated with Lenin and Stalin Churchill and de Gaulle Chiang Kai shek and Goering He took part in the talks that ended World War I and those that failed to prevent World War II While his former disciples led American diplomacy into the Cold War Bullitt became an early enthusiast of the European Union From his early 1919 proposal of disassembling the former Russian Empire into dozens of independent states to his much later 1944 advice to land the American troops in the Balkans rather than in Normandy Bullitt developed a dissenting vision of the major events of his era A connoisseur of American politics Russian history Viennese psychoanalysis and French wine Bullitt was also the author of two novels and a number of plays A friend of Sigmund Freud Bullitt coauthored with him a sensational biography of President Wilson A friend of Bullitt Mikhail Bulgakov depicted him as the devil figure in *The Master and Margarita* Taking seriously Bullitt's projects and foresights this book portrays him as an original thinker and elucidates his role as a political actor His roads were not taken but the world would have been different if Bullitt's warnings had been heeded His experience suggests powerful though lost alternatives to the catastrophic history of the twentieth century Based on Bullitt's unpublished papers and diplomatic documents from the Russian archives this new biography presents Bullitt as a truly cosmopolitan American one of the first politicians of the global era It is human ideas and choices Bullitt's projects and failures among them that have brought the world to its current state *US Department of State Dispatch*, 1990 Contains a diverse compilation of major speeches congressional testimony policy statements fact sheets and other foreign policy information from the State Dept *The Total Work of Art in European Modernism* David Roberts, 2011-12-15 In this groundbreaking book David Roberts sets out to demonstrate the centrality of the total work of art to European modernism since the French Revolution The total work of art is usually understood as the intention to reunite the arts into the one integrated whole but it is also tied from the beginning to the desire to recover and renew the public function of art The synthesis of the arts in the service of social and cultural regeneration was a particularly German dream which made Wagner and Nietzsche the other center of aesthetic modernism alongside Baudelaire and Mallarm The history and theory of the total work of art pose a whole series of questions not only to aesthetic modernism and its utopias but also to the whole epoch from the French Revolution to the totalitarian revolutions of the twentieth century The total work of art indicates the need to revisit key assumptions of modernism such as the foregrounding of the autonomy and separation of the arts at the expense of the countertendencies to the reunion of the arts and cuts across the neat equation of avant gardism with progress and deconstructs the familiar left right divide between revolution and reaction the modern and the antimodern Situated at the interface between art religion and politics the total work of art invites us to rethink the relationship between art and religion and art and politics in European modernism In a major departure from the existing literature David Roberts argues for twin lineages of the total

work a French revolutionary and a German aesthetic which interrelate across the whole epoch of European modernism culminating in the aesthetic and political radicalism of the avant garde movements in response to the crisis of autonomous art and the accelerating political crisis of European societies from the 1890s forward
