**Ideologies and the European Union** Carlo Invernizzi Accetti, Jonathan White, 2021-05-13 This volume examines what the concept of ideology can add to our understanding of the European Union and the way in which the process of European integration has inflected the ideological battles that define contemporary European politics both nationally and transnationally Contemporary debates on the nature and value of the European Union often touch on the notion of ideology The EU s critics routinely describe it as an ideologically motivated project associating it from the left with a form of neo liberal capitalism or from the right with liberal multiculturalism Its defenders often praise it in explicitly post or anti ideological terms as a regulatory body focused on the production of output legitimacy or as a bulwark against dangerous ideological revivals in the form of nationalism and populism Yet the existing academic literature linking the study of the EU with that of ideologies is surprisingly thin This volume brings together a number of original contributions by leading international scholars and takes an approach that is both historical and conceptual probing the EU s ideological roots while also laying the grounds for a reappraisal of its contemporary ideological make up The chapters in this book were originally published as a special issue of the Journal of European Public Policy

**Eurasia Without Borders** Katerina Clark, 2021-11-02 A long awaited corrective to the controversial idea of world literature from a major voice in the field Katerina Clark charts interwar efforts by Soviet European and Asian leftist writers to create a Eurasian commons a single cultural space that would overcome national cultural and linguistic differences in the name of an anticapitalist anti imperialist and later antifascist aesthetic At the heart of this story stands the literary arm of the Communist International or Comintern anchored in Moscow but reaching Baku Beijing London and parts in between Its mission attracted diverse networks of writers who hailed from Turkey Iran India and China as well as the Soviet Union and Europe Between 1919 and 1943 they sought to establish a new world literature to rival the capitalist republic of Western letters Eurasia without Borders revises standard accounts of global twentieth century literary movements The Eurocentric discourse of world literature focuses on transatlantic interactions largely omitting the international left and its Asian members Meanwhile postcolonial studies have overlooked the socialist aligned world in favor

of the clash between Western European imperialism and subaltern resistance Clark provides the missing pieces illuminating a distinctive literature that sought to fuse European and vernacular Asian traditions in the name of a post imperialist culture Socialist literary internationalism was not without serious problems and at times it succumbed to an orientalist aesthetic that rivaled any coming from Europe Its history is marked by both promise and tragedy With clear eyed honesty Clark traces the limits compromises and achievements of an ambitious cultural collaboration whose resonances in later movements can no longer be ignored
