I am not doing so well in science class this year. I need a really great science project in order to get a decent grade in the class. Do you have any ideas? Or maybe you can give me a mind-control ray for my teacher? That would work, too!

—Gemma in Georgia

*Dear Gemma,*

Believe me, if I had a mind-control ray, you would be addressing me as King Frankenvolt! However, I do have a good idea for your science project. How about a secret substance that acts like both a liquid and a solid? After you make it, try doing different things to it, such as squeezing it slowly and then quickly, placing it near a strong source of sound waves, such as a loud speaker, or pouring it slowly or quickly into other containers.

Perhaps you can give some to your teacher for his or her birthday.

—King, I mean Dr., Frankenvolt
