Reimagining Education: Studies and Stories for Effective Learning in an Evolving Digital Environment

Deborah Cockerham, Regina Kaplan-Rakowski, Wellesley Foshay, Michael J. Spector, 2023-05-30 Technology has developed at a tremendous rate since the turn of the century but educational practice has not kept pace. Traditional teaching practices still predominate in many educational settings and educators are often intimidated by new technology. However, as tragic as the COVID 19 pandemic has been, it has caused many people to rethink education and opportunities provided by new technologies for effective teaching and learning. How can educational communities of practice be reimagined to support a growth mindset for learning? This volume explores innovative visions for 21st century learning. The content explores the experiences of teachers with new technology, presents research studies that highlight effective strategies and technologies, and shares lessons learned from a unique researcher-practitioner mentoring model. Educational approaches that worked well, challenges that were difficult to overcome, and potential benefits of effective technology integration will encourage readers to reimagine education and implement practices that can strengthen the future of online education. **Quality Assessment**

and Enhancement in Higher Education in Africa Peter Neema-Abooki, 2022-12-16 This book explores quality assessment and enhancement in higher education in Africa to illustrate the need to develop quality practices in measuring effective education and continually search for permanent improvement. The book demonstrates that technological and socio-economic trends, innovations, and inventions of the twenty-first century demand that additional attention be placed upon education for national, regional, and international development. Since conventions for quality assessment and enhancement need to be defined and systematic structures constructed to develop quality practices, the book shows how quality in higher education within Africa has been established and advanced to provide a framework for monitoring, auditing, and reviewing assessment and enhancement. Though the book considers African complexities and diversity, it incorporates global trends and utilizes an international focus that enables readers to devise appropriate strategies for developing and enhancing quality and standards in higher education in both continental Africa and beyond. Illustrating why quality assessment and enhancement should be embraced in all aspects, including inputs, processes, outputs, and outcomes in educational settings globally, this book will be of interest to policymakers and scholars in the fields of Higher Education Quality and Global Studies, African Education, African Studies, and Management and Administration, Leadership, and Professional Development Studies. **Maintaining Financial**

Stability in Times of Risk and Uncertainty Behl, Abhishek, Nayak, Sushma, 2018-12-04 Risks and uncertainties in market, financial, operational, social, humanitarian, environmental, and institutional are the inherent realities of the modern world. Stock market crashes, demonetization of currency, and climate change constitute just a few examples that can adversely impact financial institutions across the globe. To mitigate these risks and avoid a financial crisis, a better understanding of how the economy responds to uncertainties is needed. *Maintaining Financial Stability in Times of Risk and Uncertainty* is an essential

reference source that discusses how risks and uncertainties affect the financial stability and security of individuals and institutions as well as probable solutions to mitigate risk and achieve financial resilience under uncertainty Featuring research on topics such as financial fraud insurance ombudsman and Knightian uncertainty this book is developed for researchers academicians policymakers students and scholars *ET 887 Module 2 Unit 8.
