

The "New 350" film recorder enables you to produce a whole number of special effects, double exposures or captions with ease by rewinding your super 8 film.
The recorder is suitable for silent and sound cartridges.

INSTRUCTIONS

1. A cartridge should not be used for double exposures at the beginning or end of the film as neither the first one or two meters nor the last two meters are suitable for rewinding. If you wish to start with a double exposure, take the cartridge out of the camera when it is advisable to roll down the footage count on the cartridge as the counter goes back to zero. FROM EMPTY COUNT THE CARTRIDGE'S TAKE-UP COUNT WITH ONE OF THE 1000-0000 ADHESIVE COUNTS OR A STOP-OF-ORIGINALLY ADHESIVE TAPE (Figure 1). This prevents the counter of the camera's take-up shaft from pressing on the film during subsequent shooting. Then insert the cartridge in the camera and film the scene or the desired caption up to a maximum of 10 seconds. Make sure that the recorder lever is set to 0 for silent cartridges and to 10 for sound cartridges.
2. Now remove the cartridge from the camera. REMOVE ADHESIVE COUNT or TAPE STOP and insert cartridge into the film recorder from above as illustrated in Figure 2. If you do this change in the light, the unprotected frames in the cartridge are exposed and must be edited out later. This can be prevented by working with the film recorder in the dark.
3. Note the film can be rewound. Each turn of the rewound button in the direction of the arrow rewinds the film 10 frames (Figure 3). The rewound procedure is complete when you sense a slight resistance.
4. During rewinding it is necessary to occasionally shake the recorder gently in the manner demonstrated in Figure 4. By means of this simple motion, the film in the cartridge returns to its original reel position. When the rewinding procedure is complete remove the cartridge from the recorder. Now replace the cartridge in the camera and superimpose the scene. If no further double exposures are desired, then film to the end of the cartridge in normal manner; otherwise repeat the above operation.
