

Reflection Paper: Self-Assessment of Learning

3 pages | 733 words

Before entering college, I never took the time to self reflect on my actions as much as I should have. Over the years, I noticed that tend to be my biggest critic. I judge everything I do both inside and outside of the classroom very harshly. Many people suggest that I should not be so hard on myself. The more I reflect on myself, the more I learn about my beliefs and skills. I believe this is a strength because I am learning more about myself and my self-development as a future counselor. Throughout this paper, I will reflect on my self-awareness when it comes to learning different counseling techniques as well as critiquing my skill development.

Self-Awareness

During a class discussion, we went over a scenario where a client was expressing having an affair with a co-worker who is married and has a child. When we were going over this particular scenario I became self-aware on how bias I am toward cheating on your significant other. If I have a future client who shares that they are cheating on their significant other, I do not want to judge them based on my beliefs. I want to help them to the best of my ability despite what I think is right or wrong. If I have a client who shares that their significant other is cheating on them, I do not want to make it seem like I am taking their side because of my beliefs. Noticing that I am biased toward cheating has impacted my learning because I will begin to look for different techniques that will benefit the way I help my client. Helping my clients overcome what they are going through entails me to be very open-minded and say what is right for my client and their situation, not dependent on my personal beliefs. During a role-playing session, I became self-aware that I need to work on using other techniques during a counseling session. I noticed during role-play, I mainly reflect on my client's feelings. Reflecting on my clients feeling is not a bad technique, but I want to expand my techniques. I want to ask more open-ended questions, use more door openers, minimal encouragers, etc. During class I learned open-ended questions and door openers can encourage my client to expand on how they are feeling. Therefore, this will give me a better understanding of where my client is coming from and how my client is feeling. I also learned that using minimal encouragers will let my client know that I am listening to them.

Skill Development

One skill I want to improve on is utilizing silence without feeling uncomfortable. During role-play sessions, I practiced using silence but I found myself breaking the silence before my client did because I felt awkward. I fear that if I utilize silence and my client senses that I am uncomfortable, it will make them uncomfortable. If my client feels uncomfortable, they will not want to open up to me. One major lesson I took away from a class discussion as well as reading Young's textbook is how silence can encourage...

Reconstructing Response to Student Writing

Dan Melzer, 2023-08-07 In Reconstructing Response to Student Writing Dan Melzer makes the argument that writing instructors should shift the construct so that peer response and student self assessment are more central than teacher response Presenting the results of a national study of teacher and peer response and student self assessment at institutions of higher education across the United States Melzer analyzes teacher and peer response to over 1 000 pieces of student writing as well as 128 student portfolio reflection essays He draws on his analysis and on a comprehensive review of the literature on response to introduce a constructivist heuristic for response aimed at both composition instructors and instructors across disciplines Melzer argues that teachers and researchers should focus less on teacher response to individual pieces of student writing and more on engaging in dialogue with student self assessment and peer response focusing on growth and transfer rather than products and grades Reconstructing Response to Student Writing especially when taken together with Melzer s previous book Assignments across the Curriculum provides a comprehensive and large scale view of college writing and responding across the curriculum in the United States
