Economic Mobility and the Rise of the Latin American Middle Class Francisco H. G. Ferreira, Julian Messina, Jamele Rigolini, Luis-Felipe Lopez-Calva, Maria Ana Lugo, Renos Vakis, Luis Felipe López-Calva, 2012-11-09 After decades of stagnation the size of Latin America's middle class recently expanded to the point where for the first time ever the number of people in poverty is equal to the size of the middle class This volume investigates the nature determinants and possible consequences of this remarkable process of social transformation We propose an original definition of the middle class tailor made for Latin America centered on the concept of economic security and thus a low probability of falling into poverty Given our definition of the middle class there are four not three classes in Latin America Sandwiched between the poor and the middle class there lies a large group of people who appear to make ends meet well enough but do not enjoy the economic security that would be required for membership of the middle class We call this group the vulnerable In an almost mechanical sense these transformations in Latin America reflect both economic growth and declining inequality in over the period We adopt a measure of mobility that decomposes the gainers and losers in society by social class of each household The continent has experienced a large amount of churning over the last 15 years at least 43% of all Latin Americans changed social classes between the mid 1990s and the end of the 2000s Despite the upward mobility trend intergenerational mobility a better proxy for inequality of opportunity remains stagnant Educational achievement and attainment remain to be strongly dependent upon parental education levels Despite the recent growth in pro poor programs the middle class has benefited disproportionately from social security transfers and are increasingly opting out from government services Central to the region's prospects of continued progress will be its ability to harness the new middle class into a new more inclusive social contract where the better off pay their fair share of taxes and demand improved public services **Evidence-based**

Decisions and Economics Ian Shemilt, Miranda Mugford, Luke Vale, Kevin Marsh, Cam Donaldson, 2011-09-22 The need for evidence based decisions that take account of both effectiveness and economics is greater now than ever Using case studies and illustrative examples throughout the authors describe how the activities and outputs of evidence synthesis systematic review economic analysis and decision making interact within and across different spheres of health and social policy and practice Expanding on the first edition the book now covers approaches to evidence synthesis that combine economics and systematic review methods in the applied fields of social welfare education and criminal justice as well as health care Written by economists and health services researchers closely involved in developing evidence based policy and

practice it showcases current state of the art methodology and will be an invaluable read for all policy makers and practitioners using evidence to inform decisions analysts conducting research to support decisions and students discovering the need for evidence based decisions to incorporate economic perspectives and evidence Resources in Education ,1998-04 Exemplars of Curriculum Theory Arthur K. Ellis,2014-01-09 This book crosses the divide between theoreticians and practitioners by demonstrating how curriculum theories and models are applied in classrooms today It ties together broad educational theories such as progressivism essentialism perennialism etc curriculum models characterized as learner centered society centered or knowledge centered and exemplars of curriculum theories and models such as Reggio Emilia Core Knowledge the International Baccalaureate etc Research in Education ,1971 Contemporary Education ,1969

Research in Education ,1971 **Economics of South African Townships** Sandeep Mahajan,2014-08-25 Countries everywhere are divided within into two distinct spatial realms one urban one rural Classic models of development predict faster growth in the urban sector causing rapid migration from rural areas to cities lifting average incomes in both places The situation in South Africa throws up an unconventional challenge The country has symptoms of a spatial realm that is not not rural not fully urban lying somewhat in limbo This is the realm of the country s townships and informal settlements T IS In many ways the townships and especially the informal settlements are similar to developing world slums although never was a slum formed with as much central planning and purpose as were some of the larger South African townships And yet there is something distinct about the T IS For one thing unlike most urban slums most T IS are geographically distant from urban economic centers Exacerbated by the near absence of an affordable public transport system this makes job seeking and other forms of economic integration prohibitively expensive Motivated by their uniqueness and their special place in South African economic and social life this study seeks to develop a systematic understanding of the structure of the township economy What emerges is a rich information base on the migration patterns to T IS changes in their demographic profiles their labor market characteristics and their access to public and financial services The study then look closely at Diepsloot a large township in the Johannesburg Metropolitan Area to bring out more vividly the economic realities and choices of township residents Given the current dichotomous urban structure modernizing the township economy and enabling its convergence with the much richer urban centers has the potential to unleash significant productivity gains Breaking out of the current low level equilibrium however will require a comprehensive and holistic policy agenda with significant complementarities among the major policy reforms While the study tells a rich and coherent story about development patterns in South African townships and points to some broad policy directions its research and analysis will generally need to be deepened before being translated into direct policy action **Applied Rasch Measurement: A Book of Exemplars** Sivakumar Alagumalai,David D. Curtis,Njora Hungi,2006-03-30 While the primary purpose of the book is a celebration of John s contributions to the field of measurement a second and related purpose is to provide a useful resource

We believe that the combination of the developmental history and theory of the method the examples of its use in practice some possible future directions and software and data files will make this book a valuable resource for teachers and scholars of the Rasch method This book is a tribute to Professor John P Keeves for the advocacy of the Rasch model in Australia Happy 80th birthday John xii There are good introductory texts on Item Response Theory Objective Measurement and the Rasch model However for a beginning researcher keen on utilising the potentials of the Rasch model theoretical discussions of test theory and associated indices do not meet their pragmatic needs Furthermore many researchers in measurement still have little or no knowledge of the features of the Rasch model and its use in a variety of situations and disciplines This book attempts to describe the underlying axioms of test theory and in particular the concepts of objective measurement and the Rasch model and then link theory to practice We have been introduced to the various models of test theory during our graduate days It was time for us to share with those keen in the field of measurement in education psychology and the social sciences the theoretical and practical aspects of objective measurement

Conservation in the Age of Consensus John Pendlebury, 2008-09-17 This new text on the subject of conservation in the built environment provides a unique holistic view on the understanding of the practice of conservation connecting it with wider societal and political forces UK practice is used as a means along with international examples for bringing together a real understanding of practice with a social science analysis of the issues The author introduces ideas about the meanings and values attached to historic environments and how that translates into public policies of conservation

Moral Economic Transitions in the Mongolian Borderlands Hedwig Amelia Waters, 2023-06-15 Since the early 1990s Mongolia began its hopeful transition from socialism to a market democracy becoming increasingly dependent on international mining revenue Both shifts were promised to herald a new age of economic plenty for all Now roughly 30 years on many of Mongolia s poor and rural feel that they have been forgotten Moral Economic Transitions in the Mongolian Borderlands describes these shifts from the viewpoint of the self proclaimed excluded the rural township of Magtaal on the Chinese border In the wake of socialism the population of this resource rich area found itself without employment and state institutions yet surrounded by lush nature 30 kilometres from the voracious Chinese market A two tiered resource extractive political economic system developed Whilst large scale formal legally sanctioned

conglomerates arrived to extract oil and land for international profits the local residents grew increasingly dependent on the Chinese funded informal illegal cross border wildlife trade More than a story about rampant capitalist extraction in the resource frontier this book intimately details the complex inner worlds moral ambiguities and emergent collective politics constructed by individuals who feel caught in political economic shifts largely outside of their control Offering much needed nuance to commonplace descriptions of Mongolia s post socialist transition this study presents rich ethnographic detail through the eyes and voices of the state s most geographically marginalized It is of interest not only to experts of political economy and post socialist transition but also to non academic readers intrigued by the interplay of value s and capitalism

Closing the School Discipline Gap Daniel J. Losen, 2015 Educators remove over 3.45 million students from school annually for disciplinary reasons despite strong evidence that school suspension policies are harmful to students The research presented in this volume demonstrates that disciplinary policies and practices that schools control directly exacerbate today s profound inequities in educational opportunity and outcomes Part I explores how suspensions flow along the lines of race gender and disability status Part II examines potential remedies that show great promise including a district wide approach in Cleveland Ohio aimed at social and emotional learning strategies *Closing the School Discipline Gap* is a call for action that focuses on an area in which public schools can and should make powerful improvements in a relatively short period of time Contributors include Robert Balfanz Jamilia Blake Dewey Cornell Jeremy D Finn Thalia Gonz lez Anne Gregory Daniel J Losen David M Osher Russell J Skiba Ivory A Toldson *Closing the School Discipline Gap* can make an enormous difference in reducing disciplinary exclusions across the country This book not only exposes unsound practices and their disparate impact on the historically disadvantaged but provides educators policymakers and community advocates with an array of remedies that are proven effective or hold great promise Educators communities and students alike can benefit from the promising interventions and well grounded recommendations Linda Darling Hammond Charles E Ducommun Professor of Education Stanford University For over four decades school discipline policies and practices in too many places have pushed children out of school especially children of color *Closing the School Discipline Gap* shows that adults have the power and responsibility to change school climates to better meet the needs of children This volume is a call to action for policymakers educators parents and students Marian Wright Edelman president Children s Defense Fund *Journal of the Indiana Academy of the Social Sciences*, 1999
