The Keystone State ranks number one in production of pretzels and potato chips and is famous for its chocolate Lebanon bologna and other snack foods. This guidebook explores the industries by offering first-hand descriptions of the factory tours available throughout the state and includes histories of the companies and directions, hours, and other practical visitor information. The Factory Allison Marsh, 2018-12-07 The book goes beyond the assembly line to examine the physical environment of the industrial landscape. What machines are used to make cars and computer chips? Who are the people who make the products? When did robots replace humans on the assembly line? Why are factories configured the way they are? *The Factory: A Social History of Work and Technology* answers these questions and more, offering readers a behind-the-scenes look into the wonders of mass production. The book traces the history of the factory from the first small cottage workshop through the Industrial Revolution to the large clean room it is today. It also examines the people behind the machines and how their roles have been defined by the design of factory buildings. Lastly, it illustrates the broader world of industrialization in relation to the effects it has had on workers and the consumer society that feeds it. **Snacks** Janis Thiessen, 2017-09-08 *Snacks* is a history of Canadian snack foods of the independent producers and workers who make them and of the consumers who can't put them down. Janis Thiessen profiles several iconic Canadian snack food companies, including Old Dutch Potato Chips, Hawkins Cheezies, and chocolate maker Ganong. These companies have developed in distinctive ways, reflecting the unique stories of their founders and their intense connection to specific locations. These stories of salty or sweet confections also reveal a history that is at odds with popular notions of junk food. Through extensive oral history and archival research, Thiessen uncovers the roots of our deep loyalties to different snack foods, what it means to be an independent snack food producer, and the often quirky ways snacks have been created and marketed. Clearly written, extensively illustrated, and lavish with detail about some of Canadians' favorite snacks, this is a lively and entertaining look at food and labour history. **2012 Camp Directors' Trip Guide** ,
