Beyond Love and Loyalty Thomas Wolfe, 2005-10-12 Letters mostly of the nuts and bolts practical variety between Thomas Wolfe and his literary agent Elizabeth Nowell Nowell served as Wolfe's editor for many of his short stories paring them down to make them acceptable to magazines Oddly enough his attitude toward her was grateful rather than adversarial and their deep mutual respect is clearly evident in these letters Originally published in 1983 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **The Textual Culture of English**

Protestant Dissent 1720-1800 Tessa Whitehouse, 2015-12-17 Religious dissenters and their literary and social heritage are the principal subjects of this book At its heart is a group of English men whose activities were local transcontinental and circum Atlantic Drawing on letters lecture notes manuscript accounts of academies and a range of printed texts and paratexts *The Textual Culture of English Protestant Dissent 1720 1800* explores the connections between dissent education and publishing in the eighteenth century By considering Isaac Watts and Philip Doddridge in relation to their mentors students friends and readers it emphasizes the importance they and their associates attached to personal relationships in their private interactions and in print It argues that this contributed to a distinctive literary style as well as particular modes of textual production for moderate orthodox dissenters which reached beyond their own community to address and influence global discourses about education enlightenment and history The book's focus on textual culture foregrounds relationships between forms as well as considering texts as they existed in one form or another In examining textual culture this book emphasises adaptation transformation fluidity and communality it approaches the human relationships that make texts including friendships reading communities intellectual exchange and business arrangements with as much care as the content of the texts themselves The book demonstrates that models of family and social authorship among Romantic era dissenters advanced by Michelle Levy Daniel White and Felicity James were rooted in the domestic culture at earlier academies and in the example of members of the Watts Doddridge circle **Limits of Loyalty** Edgar Denton III, 1980-05-01
