**Lethal Injection and the False Promise of Humane Execution** Austin Sarat, 2022-06-28 With a history marked by incompetence political maneuvering and secrecy America's most humane execution method is anything but From the beginning of the Republic this country has struggled to reconcile its use of capital punishment with the Constitution's prohibition of cruel punishment Death penalty proponents argue both that it is justifiable as a response to particularly heinous crimes and that it serves to deter others from committing them in the future However since the earliest executions abolitionists have fought against this state sanctioned killing arguing among other things that the methods of execution have frequently been just as gruesome as the crimes meriting their use Lethal injection was first introduced in order to quell such objections but as Austin Sarat shows in this brief history its supporters commitment to painless and humane death has never been certain This book tells the story of lethal injection's earliest iterations in the United States starting with New York state's rejection of that execution method almost a century and half ago Sarat recounts lethal injection's return in the late 1970s and offers novel and insightful scrutiny of the new drug protocols that went into effect between 2010 and 2020 Drawing on rare data he makes the case that lethal injections during this time only became more unreliable inefficient and more frequently botched Beyond his stirring narrative history Sarat mounts a comprehensive condemnation of the state level maneuvering in response to such mishaps whereby death penalty states adopted secrecy statutes and adjusted their execution protocols to make it harder to identify and observe lethal injection's flaws What was once touted as America's most humane execution method is now its most unreliable one What was once a model of efficiency in the grim business of state killing is now marked by mayhem The book concludes by critically examining the place of lethal injection and the death penalty writ large today

**Fake News Is Bad News** Ján Višňovský, Jana Radošinská, 2021-09-08 We live in the era of the digital revolution characterized by easy access to obtaining processing and disseminating information on a global scale The emergence of these global digital spaces has transformed the world of communication This shift in our understanding of what we should be informed about when and how manifests itself not only within mature liberal democracies which grant their citizens and the media constitutionally guaranteed freedom of speech and rights associated with obtaining information but also within developing countries with different types of political establishments Moreover many media producers especially journalists and persons claiming to be journalists abuse their crucial mission and instead foster a set of serious communication phenomena that threaten basic human rights and freedoms weaken them or decelerate their development The publication is focused on the ways fake news disinformation misinformation and hateful statements are spread across society predominantly within the online environment Its main ambition is to offer an interdisciplinary body of scholarly knowledge on fake news disinformation and propaganda in relation to today's journalism social development political situation and cultural affairs happening all around the world
