several times removed the United Kingdom of Great Britain governmental toleration of free speech progressive legislation to widen the franchise vigorous growth in political parties pluralism and its consequence the peaceful coexistence of different interests convictions and lifestyles a healthy adherence to Burkean little platoons of volunteers and most of all sophisticated developments in mass media technologies and consumer marketing techniques all of which means that the Anglo Saxon cousins are and have always been in the vanguard of news management Government and media have been at war from the very beginning Au fond this is a struggle for allegiance The media want the allegiance of their readers and viewers because this brings them the profits they need to remain in business As Patrick Le Lay then CEO of the main French private channel TF1 put it There are many ways to speak about TV but in a business perspective let s be realistic TF1 s job is to help Coca Cola sell its product What we sell to Coca Cola is available human brain time Government on the other hand wants the allegiance of the voter to acquire or retain power The famous Victorian editor of The Times Thomas Barnes once said that the newspaper is not an organ through which Government can influence people but through which people can influence the Government Politicians would reverse the dictum And therein lies the causus belli The politician s strategy for winning this war was stated most succinctly by that arch media manipulator David Lloyd George what you can t square you squash and what you can t squash you square The media for their part are determined to be neither squashed nor squared From 1800 in the US and 1832 in Britain when Germany and Italy were just a glint in the eye of some petty princes and France was recovering from yet another pointless revolution leaving behind yet another example of Kafka s bureaucratic slime competitive party based elections produced extraordinary outbursts of creativity Politicians learned that the art of politics is about making and then winning arguments As each successive cutting edge novelty arrived the spin doctors quickly adapted and improved their techniques by adroitly exploiting the new medium s benefits For two centuries and even before the Anglo Saxons have led the world in spin this is the history of that journey

**Protecting Intellectual Property in the Arabian Peninsula** David Price, Alhanoof AlDebasi, 2017-09-13

This work examines the endeavours of the Arabian Peninsula States namely the Gulf Cooperation Council member States of Bahrain Kuwait Oman Qatar Saudi Arabia and the UAE as well as Jordan and Yemen as prospective GCC members in establishing national intellectual property protection regimes which both meet their international treaty obligations and are also congruent with their domestic policy objectives It uses the WTO s TRIPS Agreement of 1995 as the universal benchmark against which the region s laws are assessed The challenges faced by the States in enforcing their intellectual property laws receive particular attention Protecting Intellectual Property in the Arabian Peninsula considers the changing nature of the States intellectual property laws since 1995 It argues that the decade immediately following the TRIPS Agreement was marked by a period of foreign forces shaping or influencing the character of the States intellectual property legislative regimes primarily through multilateral or bilateral trade based agreements The second and current decade however see a significant shift away from foreign influences and a move towards domestic and regional imperatives and initiatives taking over The work also examines regional initiatives for the protection of traditional knowledge and cultural heritage as areas of intellectual property which fall outside the parameters of the TRIPS Agreement but which are of significant concern to the States and other developing countries and to which they are giving increasing attention in terms of providing proper protection
