the criminal justice system It is written so that practitioners and researchers alike can use the text as reference tool in their work and in training the new generation of individuals working to improve the system Researchers and practitioners in many areas of criminal justice crime prevention policing courts prosecution defendants judges corrections sanctions and sentencing can reference specific chapters in this book to guide their policy and practice decisions Although theory is a guide for the practices described the chapters will address practical issues in implementation and action This book overcomes the limitations of previous criminal justice practice books in that it is written as a practice resource and reference guide and spans practices and policies across different sectors of the criminal justice system from prevention to policing to sanctions and corrections Each chapter contains a list of action items based upon the best available scientific research that can be implemented in practice to address key issues and long standing challenges in the criminal justice system **Bowker's Law**
