Bulk Package Accident Performance Data Collection Philip J. Daum, 2013 TRB's Hazardous Materials Cooperative Research Program HMCRP Report 10 Feasibility Study for Highway Hazardous Materials Bulk Package Accident Performance Data Collection explores methods to collect and analyze performance data for U.S. Department of Transportation DOT specified hazardous materials bulk packages such as portable tanks and cargo tank motor vehicles. The report also identifies and evaluates institutional challenges to data collection and makes suggestions for overcoming these challenges. In addition, the report offers a methodical approach for developing and implementing a reporting database system to collect and characterize information about damage to U.S. DOT specified hazardous materials bulk packages involved in accidents regardless of whether the damage resulted in a leak of contents. Appendices A through G have been published on a CD-ROM which is bound into this report. Appendix titles are the following: Appendix A Survey Development and Questions; Appendix B Conditional Probability of Release as a Function of Data Refinement; Appendix C Differences Between Highway and Rail Hazardous Material Transportation Affecting Development of a Bulk Package Accident Performance Database; Appendix D Option Evaluation Tool; Appendix E Pilot Study Data Collection Tool; Appendix F Links to Newspaper Articles; Appendix G An Example of Bulk Package Performance Analysis Using Multivariate Regression. The CD-ROM is also available for download from TRB's website as an ISO image. Links to the ISO image and instructions for burning a CD-ROM from an ISO image are provided below.

Annual accountability hearing with the Nursing and Midwifery Council Great Britain: Parliament: House of Commons: Health Committee, 2011-07-26. The Health Committee reports on the annual accountability hearings with the General Medical Council GMC HC 1429 and Nursing and Midwifery Council NMC HC 1428. The reports call for doctors and nurses to develop a wider responsibility for the overall quality of care delivered to patients and they have an obligation as professionals to report to their professional body any concerns they have about the quality of care being delivered by their colleagues. The GMC and the NMC must give a strong lead in this area and ensure that failure to act on this responsibility is regarded as a serious breach of professional obligation. The Committee stresses that both regulators need to have effective revalidation processes in place so that they can periodically check on how doctors and nurses are performing. The Committee recognises that the NMC is making steady progress towards being an effective regulator but cautions that there remains substantial ground to cover before it can be considered fully effective. Work around pro-active regulation risk-based visits must be expanded. Guidance about the care of older people must be reinforced by an action plan to deliver improved outcomes in this group. Government and both regulators must speed up efforts to resolve the serious problems posed by doctors and nurses who qualify elsewhere in Europe and earn the right to work in the UK without having their language or medical skills tested. The UK and European law that underpins the workings of both regulators needs a complete overhaul.
