Twenty Years of Education Transformation in Gauteng 1994 to 2014 Maringe, Felix, Prew, Martin, 2015-05-05
Twenty Years of Education Transformation in Gauteng 1994 to 2014 An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994 These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects Each essay is written by one or more specialist in the relevant focus area The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years

Higher Education as a Tool for Progress in South Africa
D. D. Tewari, 2024-10-08 Education is a tool used to elevate citizens from poverty and unemployment and thus contributes to nation building and the promotion of a knowledge based society in the information age South Africa can take a cue from Asia and its rapid industrialization in the 1970s and its subsequent progressive education The book is an illustrious historical and lucid discussion and commentary on the changing nature of education in the South African Higher education sector in particular It covers a canvass of issues on higher education and the knowledge industry in the South African context and possible challenges that lie ahead The twin challenges of low enrollment and high dropout rates in South African universities especially at first year level are alarming and robbing the country of its economic potential It is the need of the hour to collaborate on an international level to spur knowledge creation and economic growth which South Africa so desperately needs The book is a welcome addition for policy makers and research scholars in higher education
