Integrate purchasing to lower costs

From purchase request through invoice match, traditional procurement processes are often very inefficient. They can devour vast amounts of staff time and substantial dollars. The underlying problem: Many organizations employ time-consuming manual purchasing processes or, at best, a disconnected collection of software solutions.

Infor® Lawson Procurement drives inefficiencies and hidden costs out of your purchasing processes. In addition, Infor Lawson Procurement can help support your goal of consistently obtaining the right products and services at the best possible price and help bring accuracy, reliability, and timeliness to your order fulfillment.

Your purchasing staff stands to directly benefit, too. No longer saddled with many unwieldy administrative tasks, they'll be free to concentrate on strategic sourcing and other activities that can add real value to the organization.

In addition, you can integrate Infor Lawson Procurement with our other supply chain management, enterprise financial management, enterprise performance management, and business process management applications, helping to create a truly powerful end-to-end solution.

With your current procurement system, are you able to:

- Give your buyers access to customizable electronic requisitions, featuring easy-to-use templates?
- Specify multiple routing and approval scenarios that comply with your business rules?
