War, Peace and Progress in the 21st Century Mark Berger, Heloise Weber, 2013-09-13 The history of development is one marked by insecurities violence and persistent conflict It is not surprising therefore that development is now thought of as one of the central challenges of world politics However its complexities are often overlooked in scholarly analysis and among policy practitioners who tend to adopt a technocratic approach to the crisis of development and violence This book brings together a wide range of contributions aimed at investigating different aspects of the history of development and violence and its implications for contemporary efforts to consolidate the development security nexus From environmental concerns through vigilante citizenship to the legacies of armed conflicts during and after decolonization the different chapters reconstruct the contradictory history of development and critically engage contemporary responses and their implications for social and political analyses In examining violence and insecurity in relation to core organising principles of world politics the contributors engage the problems associated with the nation state and the inter state system and underlying assumptions of the promises of progress The book offers a range of perspectives on the contradictions of development and on how domination violence and resistance have been conceived At the same time it exemplifies the

relevance of alternative methodological and conceptual approaches to contemporary challenges of development This book was published as a special issue of Third World Quarterly Tomorrow's Table Pamela C. Ronald, Raoul W. Adamchak, 2018 Tomorrow's Table is for anyone who wishes to know more about how the food they eat is grown It is for every shopper policy decision maker farmer or anyone who has a tone time or another wondered what labels such as organic or GMO truly mean for the health of the population and the future of our planet Back cover The Evolution of the Unconscious Susan Long, 2025-02-12 Drawing on over four decades of professional and academic experience Susan Long explores how the concept of the unconscious has evolved from the nineteenth to the twenty first century showing that it is more than an individual phenomenon but also a group organisational and institutional phenomena Each chapter examines theories that use the idea of the unconscious first covering the work of Schelling Freud Bion and Lacan After examining traditional psychoanalytic ethos the author takes a look at the mid twentieth century extension of the meaning of the unconscious towards the social field Here she explores three main traditional categories of approaches the Neo Freudians the Frankfurt School and social scientists historians and anthropologists The book also covers the idea of approaching the unconscious from the perspective of the neurosciences as well as its connections with nature showing a broader more cosmic view of the unconscious in nature and the universe Lastly Long looks at how we might understand today's organisations and society through the lens of the changing ideas presented throughout the book Broad sweeping and accessible this book is a valuable resource for organisational psychologists consultants and managers exploring psychoanalytic and socioanalytic approaches as well as those in academic settings wanting to pursue an interest in the unconscious Atoms, Bytes and Genes Martin W. Bauer, 2015-02-11 Atom byte and gene are metonymies for techno scientific developments of the 20th century nuclear power computing and genetic engineering Resistance continues to challenge these developments in public opinion This book traces historical debates over atoms bytes and genes which raised controversy with consequences and argues that public opinion is a factor of the development of modern techno science The level and scope of public controversy is an index of resistance examined here with a pain analogy which shows that just as pain impacts movement resistance impacts techno scientific mobilization it signals that something is wrong and this requires attention elaboration and a response to the challenge This analysis shows how different fields of enquiry deal with the resistance of social psychological mentalities in the face of industrial scientific and political activities inspired by projected futures
