Rose, 2023-11-09 In this second volume of the successful Exemplars of Assessment in Higher Education editors Souza and Rose share examples of assessment practice from over fifteen distinct and diverse Higher Education Institutions including international contributions Building upon the work of the first volume the case studies in this book reflect the changes in assessment and higher education in the post Covid education environment The institutions that appear in this book were chosen for having an effective assessment approach in one or more of the following areas career readiness distance education diversity equity and inclusion or general education Each part of the book discusses one of these four areas with chapters that feature real life examples from the educators who teach at the college or university Featuring a Foreword by AAC U President Lynn Pasquerella the work highlighted in this book is also aligned with AAC U s Valid Assessment of Learning in Undergraduate Education VALUE initiative to help educators make the best decisions about measuring student learning This book is ideal for university educators and assessment practitioners looking to diversify and enhance their assessment practices A Co Publication with AAC U **Setting Consensus Goals for Academic Achievement** James Pellegrino, Lauress Wise, Nambury Raju, 2014-10-13 This special issue is based on a workshop which began with a description and examination of the current National Assessment of Educational Progress NAEP standard setting

model then looked to standard setting applications outside of education These applications included those that focus on human performance and the adequacy of human performance in these contexts raters were asked to focus on the knowledge and skills that underlie competent performance Researchers also examined applications that focus on the impact of environmental agents on life and the ecology in these cases raters began with the knowledge that more or less of a substance is better and as for NAEP the judgment task was to determine how good is good enough They wished to examine parallels in the objectives empirical grounding judgmental requirements and policy tensions for standard setting in NAEP and in other domains These papers were commissioned to examine the current state of affairs and residual issues with respect to achievement level setting in NAEP and to help determine whether the models and methods used in other disciplines have useful application to education It is important to note that the papers represent the authors views not necessarily those of the committee or National Research Council This issue and the workshop discussion point out a number of analogies between the objectives requisite data judgment requirements and policy issues for NAEP and other applications The editors hope that this issue and wide distribution of these papers will prompt others to join in this interesting analysis and debate Explanatory Mensuration ...
