

Honda's infinitely variable Hydrostatic transmission makes it easy to find the right speed for any snow clearing situation and operator preference. A single lever accurately adjusts ground speed without affecting auger rotation speed.

The HS928TC and HS928TCO models also feature Honda Track Drive — pliable rubber tracks with cleats support the snowblower's weight to give superior traction and extra grip on deep driveways and steps.

Standard work light, electric joystick chute control and 12 volt DC electric start provide an additional level of convenience on the HS928TCO.
