

Your kit will include the specified 2 or 3 pedals depending on MT or AT version.

The plates included are to secure the new pedals to old hardware - depending on application you may have some left over. This applies to the hardware as well.

**Please Note** The screws supplied have variations depending on the application. If you need to drill holes & screw your accelerator pedal over your old one, you should opt for the flathead screws. For securing the pedal without drilling you should choose the hex screws.
