- This device contains a moving fan blade; do not operate the humidifier without the cover securely attached.

All wiring must comply with applicable local codes, ordinances and regulations.

### HE908 Humidistat Wiring Connections

- Select models of fan-pumpers include Humidifier type so the current sensing relay or sail switch is not needed.
- If not using a current sensing relay or sail switch, the T300V Humidifier plug must be energized during blower motor cycles for proper operation.

2. Connect only the two yellow wires to the humistat (red wire connections are not used for mechanical humistats). See the humistat wiring diagrams in Fig. 5 through 7.
