Curtis,2023-08-01 This collection argues that the romanticized conflation of childhood and innocence in American culture has been on a steady decline at least since the 1960s largely due to postmodern critiques of overarching narratives involving both the child and the innocence of childhood Additionally this collection highlights and analyzes examples of children s literature and culture throughout the 20th century and into the 21st which pointedly defy traditional idealized notions of childhood Such an analysis serves to reiterate the idea that the romanticized notion of childhood which has pervaded American culture for over two centuries is little more than a cultural construction that bears little to no resemblance to the actual lived experience of American children Integrating Literature in the Content Areas Sharon Kane,2017-05-12 This practical accessible resource will help future and practicing teachers integrate literature into their middle school or high school classrooms while also addressing content area standards and improving the literacy skills of their students Two introductory chapters are followed by five chapters that each cover a different genre Chapter 3 Informational Books Chapter 4 Fiction Chapter 5 Biography Autobiography and Memoir Chapter 6 Poetry and Chapter 7 How to and Hands on Books Each genre chapter consists of four parts Part 1 Discusses the genre and how content area teachers can use books within that genre to further content learning and enhance literacy skills Part 2 Offers hands on instructional strategies and activities using literature with activities for use in a variety of disciplines Part 3 Presents individual author studies three or four per chapter with bibliographies and guidelines for using the authors books in content area courses Part 4 Features an annotated bibliography of specially selected children and young adult literature for that genre organized by content area The annotations provide information about the book which can be used to prepare booktalks and teaching ideas for using in a specific content area Altogether these sections contain more than 600 annotated entries tabbed by subject area including art English language

Knox, 2015-01-16 Requests for the removal relocation and restriction of books also known as challenges occur with some frequency in the United States Book Banning in 21st Century American Libraries based on thirteen contemporary book challenge cases in schools and public libraries across the United States argues that understanding contemporary reading practices especially interpretive strategies is vital to understanding why people attempt to censor books in schools and public libraries Previous research on censorship tends to focus on legal frameworks centered on Supreme Court cases historical case studies and bibliographies of texts that are targeted for removal or relocation and is often concerned with how censorship occurs The current project on the other hand is focused on the why of censorship and posits that many censorship behaviors and practices such as challenging books are intimately tied to the how one understands the practice of reading and its effects on character development and behavior It discusses reading as a social practice that has changed over time and encompasses different physical modalities and interpretive strategies In order to understand why people challenge books it presents a model of how the practice of reading is understood by challengers including what it means to read a text and especially how one constructs the idea of appropriate reading materials The book is based on three different kinds sources The first consists of documents including requests for reconsideration and letters obtained via Freedom of Information Act requests to governing bodies produced in the course of challenge cases Recordings of book challenge public hearings constitute the second source of data Finally the third source of data is interviews with challengers themselves The book offers a model of the reading practices of challengers It demonstrates that challengers are particularly influenced by what might be called a literal common sense orientation to text wherein there is little room for polysemic interpretation multiple meanings for text That is the meaning of texts is always clear and there is only one avenue for interpretation This common sense interpretive strategy is coupled with what Cathy Davidson calls undisciplined imagination wherein the reader is unable to maintain distance between the events in a text and his or her own response These reading practices broaden our understanding of why people attempt to censor books in public institutions *Book Review Digest* ,1992 **Reel Conversations** Alan B. Teasley, Ann Wilder, 1997 In Reel Conversations Alan Teasley and Ann Wilder discuss and demonstrate the powerful role film can play in the language arts classroom both as a subject in itself and as a key dimension of language study **Children's Literature** Diana Mitchell, Pamela Waterbury, Rose Casement, 2003 Children's Literature An Invitation to the World is written and organized in a manner that engages the readers and that will instill confidence in teachers when selecting and using literature in their teaching Readers are asked to take a world view of literature what it is how to recognize one's own how to recognize an author's and encouraged to see children's literature through a lens that includes people not like themselves The book tackles tough issues such as gender and racial bias and how they can be insidiously promoted in literature No other book on the market engages readers more than this one Rather than

just presenting topics the book asks What can we learn from them In addition the first person narrative involves readers in the discussion rather than simply presenting content to them Elementary and middle school teachers curriculum developers and anyone interested in children s literature *The Horn Book Magazine* ,1991 *On the Shoulders of Giants* Steven T.
