Criminal Liability for Non-Aggressive Death Sally Cunningham,2016-05-13 The crime of manslaughter exists as a catch all offence to punish those who are blameworthy in causing the death of another but whose culpability falls short of that required for murder Manslaughter is an extremely broad offence and it has a difficult task in ensuring that all those who warrant punishment for non aggressive deaths are convicted Simultaneously it should not be too broad in covering those who do not warrant punishment for such deaths There is little consistency in whether a particular dangerous activity leads to liability for a specific offence or for the generic offence of manslaughter when death is caused This book examines the current law and includes a variety of perspectives on the subject with chapters on specific modes of killing as well as issues that permeate all areas The first half of the book deals with issues such as how any special offences for non aggressive death should relate to a hierarchy of homicide offences The second half deals with issues specific to different activities which may or may not justify the creation of specific homicide offences The book includes a comparative chapter on Australian law

Justice After War David Chiwon Kwon,2023-05-12 Justice After War is aimed especially to both undergraduate and graduate students as well as the general audience who want to understand the significance of a recent development within the just war tradition namely the increasing attention given to the category of jus post bellum postwar justice and peace While examining the interrelated challenges of moral and social norms in both political and legal domains as well as church practices this work proposes an innovative methodology for linking theology ethics and social science so that the ideal and the real can inform each other in the ethics of war and peacebuilding The main task of this project then is

to identify what the author views as three key themes of jus post bellum and three practices that are essential to implementing jus post bellum immediately after a war just policing just punishment and just political participation David Kwon endeavors to challenge the view of those who suggest that reconciliation mainly political reconciliation is the foremost ambition of jus post bellum Instead he attempts to justify the proposition that achieving just policing just punishment and just political participation are essential to building a just peace a peace in which the fundamental characteristic must be human security It thus demonstrates that human security is an oft neglected theme in the recent discourse of moral theologians and that a more balanced understanding of jus post bellum will direct attention to the elements composing human security in a postwar context **Justice of the Peace** ,1892 **Environmental Justice and the Rights of Ecological Refugees**

Laura Westra,2009-09-02 Climate change and other environmental problems are increasingly leading to the displacement of populations from their homelands whether this be through drought flooding famine or other causes Worse there is currently no protection in international law for people made refugees by such means **Justice, Equality and Tax Law** Nevla Čičin-Šain,Mario Riedl,2022-10-05 An in depth analysis of the specific aspects of justice equality and tax law Justice Equality and Tax Law is a topic that is both old and new at the same time Even if the society changes the demands that tax needs to be just and equal seem to be immutable What changes of course is the perception of the content of those demands International taxation post BEPS has been fraught with new challenges that warranted urgent responses These challenges were mainly provoked by the unprecedented rise of the digital economy which truly marked a change in the way business is conducted how value is created and how goods and services are produced and consumed Digitalization in turn had repercussions on all aspects of taxation direct taxation indirect taxation and even tax procedures For instance the quest for more justice and equality in profit taxes was the reason why in October 2021 a historical deal based on a two pillar solution to address the tax challenges arising from the digitalization of the economy was negotiated within the OECD G20 Inclusive Framework on Base Erosion and Profit Shifting and agreed upon by 137 member countries It was also the motive behind the shift from a typical vendor collection model to an intermediary collection model supported by centralized registration points in indirect taxes notably the VAT GST Abundant data from the European Union or the OECD signaled an ever increasing gap between expected VAT revenues and VAT actually collected making it obvious that the classical system of VAT GST collection was unable to respond to challenges posed by the digital economy Therefore new solutions based on the participation of digital platforms as intermediaries had been introduced Finally new technologies such as blockchain paved new avenues in enhancing tax compliance In this context this volume entitled Justice Equality and Tax Law contains not only a selection of the best master s theses of the full time LL M programme in 2021 2022 but also represents an in depth analysis of various aspects of this evergreen topic *Savage Justice* M A Comley,2020-06-27 From the New York Times and USA Today bestselling author M A Comley who has sold nearly three million ebooks worldwide The year is 2004 Lorne Simpkins
