

Introduction à l'analyse d'image

A l'heure actuelle, il faut le reconnaître, l'image a tendance à s'associer à toutes nos activités via la télévision, les jeux vidéo, la presse, les magazines, les publicités... Nous vivons véritablement dans une société de l'image. L'image possède un atout majeur, elle peut être comprise de tous et touche la sensibilité du récepteur, elle véhicule des émotions.

L'image passe toujours par deux individus : celui qui la conçoit et celui qui la reçoit.

Un adulte, un enfant, un homme, une femme ... ne percevront pas de la même manière une photo, une publicité, une peinture, une caricature, etc.

L'image est donc forcément subjective dans sa lecture! Les images peuvent être conformes à la réalité, mais leur utilisation peut être fausse. Pensez à toutes les manipulations possibles d'une image en fonction du message que l'on veut transmettre, du contexte dans lequel elle va être utilisée, du commentaire qui va l'accompagner, ...

Si pour les textes nous avons appris qu'il fallait les étudier, les remettre dans leur contexte, pour l'image, nous avons la fâcheuse tendance de croire tout ce que nous voyons.

A travers cette séquence nous allons voir quels sont les outils que nous avons à notre disposition et quelle est la méthodologie à employer pour analyser une image.
