Dirty War Glenn Cross, 2017-03-21 Dirty War is the first comprehensive look at the Rhodesia s top secret use of chemical and biological weapons CBW during their long counterinsurgency against native African nationalists Having declared its independence from Great Britain in 1965 the government made up of European settlers and their descendants almost immediately faced a growing threat from native African nationalists In the midst of this long and terrible conflict Rhodesia resorted to chemical and biological weapons against an elusive guerrilla adversary A small team made up of a few scientists and their students at a remote Rhodesian fort to produce lethal agents for use Cloaked in the strictest secrecy these efforts were overseen by a battle hardened and ruthless officer of Rhodesia s Special Branch and his select team of policemen Answerable only to the head of Rhodesian intelligence and the Prime Minister these men working alongside Rhodesia s elite counter guerrilla military unit the Selous Scouts developed the ingenious means to deploy their poisons against the insurgents The effect of the poisons and disease agents devastated the insurgent groups both inside Rhodesia and at their base camps in neighboring countries At times in the conflict the Rhodesians thought that their poisons effort would bring the decisive blow against the guerrillas For months at a time the Rhodesian use of CBW accounted for higher casualty rates than conventional weapons In the end however neither CBW use nor conventional battlefield successes could turn the tide Lacking international political or economic support Rhodesia s fate from the outset was doomed Eventually the conflict was settled by the ballot box and Rhodesia became independent Zimbabwe in April 1980 Dirty War is the culmination of nearly two decades of painstaking research and interviews of dozens of former Rhodesian officers who either participated or were knowledgeable about the top secret development and use of CBW The book also draws on the handful of remaining classified Rhodesian documents that tell the story of the CBW program Dirty War combines all of the available evidence to provide a compelling account of how a small group of men prepared and used CBW to devastating effect against a largely unprepared and unwitting enemy Looking at the use of CBW in the context of the Rhodesian conflict Dirty War provides unique insights into the motivation behind CBW development and use by states especially by states combating internal insurgencies As the norms against CBW use have

seemingly eroded with CW use evident in Iraq and most recently in Syria the lessons of the Rhodesian experience are all the more valid and timely **Product Safety & Liability Reporter** ,2004 **The Advocate** ,2003-12-09 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States **Popular Science** ,2004-09 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Popular Science** ,2000-10 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better Road & Track Crew's Big & Fast Cars Dan Bova,2022-03-08 The fastest funniest page turner on the planet This is the ultimate book for kids who love slick supercars powerful monster trucks and record smashing speed machines Buckle up the only thing more exciting than reading this book about big and fast cars is sitting behind the wheel of one crossing the finish line at the Indy 500 Inside you ll find amazing color photos mind blowing facts and answers to some very urgent questions like Do you know why the van was embarrassed around its friends Because it had a little gas Since the invention of the wheel people have been building machines that go faster and faster and look cooler and cooler The first cars went about 10 mph now they easily break 200 mph and some even drive themselves Speaking of which ever wonder whose fault it is if two self driving cars get in an accident Pick up this book and find out Under the hood you ll discover Incredible auto related facts like record setting rides check out the 763 mph ThrustSSC rocket car and answers to seriously silly questions How do race car drivers pee during a race Many S T E A M learning opportunities such as the science of how cars work and the history of cars from the Model T to electric cars to a Tesla in space Behind the scenes stories of people with great car related jobs such as a Hot Wheels designer the guy who created the Batmobile a scientist who controls rovers on Mars and of course record setting drivers like Danica Patrick Alexander Rossi Dale Earnhardt Jr and teen sensation Chloe Chambers Fun activities such as drawing lessons create your own car cartoon character matching games quizzes plus tons of jokes Sneak peeks inside the garages of your favorite famous car collection celebs like The Rock Lady Gaga Guy Fieri and other car obsessives The only thing readers need to drive Road Track Crew Big Fast Cars is a license for fun So turn the key step on the gas and let s go
