

Synthesis Prompt Practice

Synthesis Question:

"Social media platforms have become a significant part of modern life, influencing various aspects of society, including personal relationships, political discourse, and public awareness of social issues. Consider the role of social media in shaping public opinion and behavior. Write a one-paragraph response that synthesizes information from the following three sources to develop your position on whether social media is more beneficial or harmful to society. (This is the position, command word prompt)

Source A: Excerpt from a news article

"Social media platforms like Twitter and Facebook have been instrumental in mobilizing young voters and raising awareness about social and political issues. For instance, movements such as #MeToo and #BlackLivesMatter gained momentum largely through social media, bringing attention to critical social justice issues." (This perspective - positive)

Source B: Excerpt from a research study

"A study published in the journal of Social Psychology suggests that excessive use of social media can lead to increased feelings of loneliness and depression, especially among teenagers. The study highlights that while social media can connect people, it often replaces real-life interactions with virtual ones, leading to a sense of isolation." (This perspective - negative)

Source C: Excerpt from an opinion piece

"Social media platforms are often criticized for spreading misinformation and fake news, which can influence public opinion and skew democratic processes. The ease with which information, whether true or false, can be shared has led to significant challenges in ensuring the accuracy and reliability of content consumed by the public." (This perspective - negative)

Your Task: (On the exam you will write a whole essay, but for today's lesson, you are just writing a paragraph)

Your response should be one paragraph long, integrate information from all three sources, and articulate a clear position on the impact of social media on society.

Cracking the AP English Language and Composition Exam, 2013 Edition Princeton Review, Richard Atley Hartzell, 2012-09-04 Provides test taking strategies a subject review coverage of the essays vocabulary words and two full length practice tests with explanations **High Literacy in Secondary English Language Arts** Marc Nachowitz, Kristen C. Wilcox, 2018-11-07 This volume culls scholarship on both what high literacy is and how it is developed It embraces the call put forth by Langer and Applebee 2016 that high literacy must continue to be our aim and to see more research analyzing and identifying how teachers might promote literacy practices that promote deep thinking around important content The editors offer a conceptual framework for high literacy that explicates how each component i.e. reading writing dialogic engagement and epistemic cognition in literary reasoning relates to the others and from what scholarly literature these concepts have been derived Individual chapter authors provide in depth examinations of the existing research base on particular related topics focusing on the two important cross cutting aims of the volume 1 explicating the roles reading writing dialogic engagement and epistemic cognition hold in high literacy development and 2 providing examples of practices recommended to develop high literacy

INVESTIGATING COMPARABILITY OF WRITING TASKS WITH PICTURE PROMPTS IN AN IN-HOUSE ENGLISH PROFICIENCY TEST YALI SHI, 2022-04-28 For security reasons using parallel writing tasks within or across different test administrations is common practice in large scale language testing Lack of task comparability would result in unjustified variance in test performance and consequently jeopardize test validity and fairness Thus it is crucial for test developers to gather empirical evidence from different aspects to substantiate the fairness argument that scores are consistent and score based decisions are impartial across parallel tasks Despite many studies hitherto on writing task comparability those addressing picture prompt writing tasks in an integrated manner have remained quite underexplored Therefore this book investigates the comparability of five writing tasks with picture prompts randomly assigned across testing occasions in an in house English proficiency test EPT of a comprehensive university from three perspectives the scores the texts and the raters

and test takers Results show that task difficulty is not comparable either in terms of some lexical syntactic and content features elicited or as judged by raters and test takers which could be related with topic familiarity and conceptual clarity of the picture prompt Yet overall task comparability is achieved in not only final scores but also score distribution and classification accuracy The findings support the fairness argument for EPT writing and provide theoretical practical and methodological implications
