Subject Guide to Books in Print ,1993 Reframing Police Education and Freedom in America Martin Alan

Greenberg,Beth Allen Easterling,2023-09-15 This book untangles the components of police education and advocates a robust community based training model with significant civilian oversight The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education for it is they who must both support and be served by their police The police must be role models for society demonstrating that freedom and rights come with obligations both to the community as a whole and to individuals in need within that community Ultimately the quality of police training and the public s safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community s trust in its police The issues of police recruitment education and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement Several incidents including most notably George Floyd s murder by police have sparked new training initiatives regarding police de escalation and community engagement At the same time the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing In this context reform of the police education system is urgent This book examines police training at all levels of government local regional state and federal In addition citizen participation programs including the role of the media and programs for furthering law related education LRE are highlighted The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education for it is they who must both support and be served by their police The focus is on teaching a guardian style of policing at the local level Police education would combine higher education necessary practical proficiencies and intensive field experiences through a gradual level of greater responsibility likely extending over a 2 plus year period for trainees with less than a year of previous college credits This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers including those in executive development programs in police departments community leaders scholars and policy experts who specialize in policing concerned citizens and students of criminal justice especially those interested in police organization and management criminal justice policy and the historical development of police LAPD CHRONICLES Hank Foresta,2013-12 This book is a seldom told true story of some of the law enforcement heroes They worked long and hard in incredibly dangerous and uncomfortable situations fighting the war on drugs which no one but them ever expected They started before there was a declaration of war From personal and professional experience they knew that this country its people its institutions its economy and its leadership in the free world were in peril They saw the growing menace to our kids to our schools and even to law enforcement Someone had to fight back with uncommon valor and dedication More than four thousand three hundred people have been killed in the last year and a half Police stations have been bombed and officers have been shot and killed in police facilities Some police officials have been kidnapped shot gangland style tortured and even beheaded Police and government officials at the highest levels

have been the object of assassination and along with their bodyguards shot and killed In one city thirteen people were shot and killed in one evening and left dead in the street In another city sixteen people including a twelve year old girl were shot The government sent in the military in large numbers but the killings continued The Sin Blue Line:How God delivered me from the LAPD and other miracles Barry Brooks J.D.,2017-06-15 At the age of twenty three Barry Brooks was saved after accepting Jesus Christ as his Lord and Savior Shortly thereafter the Lord called Barry from a quiet small town in New England to South Central Los Angeles and the LAPD As many deadly threats faced Barry on a daily basis on the streets of Los Angeles during the crack wars of the late 1980s and 1990s his biggest battle would come not from the dangers of the street but from within the ranks of the LAPD After exposing systematic corruption leading all the way up to the chief of police and city officials Barry would endure a seventeen year battle of retaliation which came very close to costing him his life his liberty prison and certainly his career However God manifested Himself in overt and incredible ways during this time of trial giving Barry the strength to resist and at the same time grow in his faith Although Barry s story reveals the sin of the LAPD s thin blue line the main purpose of this book as revealed by God to Barry is simply to Glorify God **California Police Officer Exam Study Guide** Trivium,2020-08-24 Police Officer Exam Study Guide Elissa Simon,2021-06 Introducing our Police Officer Exam Study Guide Test Prep Review of English Math Reasoning Skills and Practice Questions with Answer Explanations Trivium Test Prep s Police Officer Exam Study Guide includes everything you need to pass your local or departmental police exam the first time Quick review of the concepts covered on most national police and corrections exams A full practice test with detailed answer explanations Tips and tricks from experienced educators Trivium Test Prep s Police Officer Exam Study Guide is aligned with the content covered on most police officer exams Topics covered include Reading Comprehension Writing Mathematics Reasoning for Law Enforcement Inductive Reasoning Deductive Reasoning Problem Sensitivity Spatial Orientation Information Ordering Memorization Visualization Selective Attention and Flexibility of Closure Trivium Test Prep is not affiliated with or endorsed by any testing organization and does not own or claim ownership of any trademarks All test names and their acronyms are trademarks of their respective owners This study guide is for general information and does not claim endorsement by any third party About Trivium Test Prep At Trivium Test Prep we understand that students need high quality reliable test prep materials Our test prep materials are developed by credentialed experts with years of experience who are excited to share their knowledge with you We have resources available to assist in every step of your education from high school to college or the military and even graduate school everything you need to kickstart your career Medical Screening Manual for California Law Enforcement R.
