Ordinary Medicine Sharon R. Kaufman, 2015-05-29 Most of us want and expect medicine s miracles to extend our lives In today s aging society however the line between life giving therapies and too much treatment is hard to see it s being obscured by a perfect storm created by the pharmaceutical and biomedical industries along with insurance companies In Ordinary Medicine Sharon R Kaufman investigates what drives that storm s more is better approach to medicine a nearly invisible chain of social economic and

bureaucratic forces that has made once extraordinary treatments seem ordinary necessary and desirable Since 2002 Kaufman has listened to hundreds of older patients their physicians and family members express their hopes fears and reasoning as they faced the line between enough and too much intervention Their stories anchor Ordinary Medicine Today s medicine Kaufman contends shapes nearly every American s experience of growing older and ultimately medicine is undermining its own ability to function as a social good Kaufman s careful mapping of the sources of our health care dilemmas should make it far easier to rethink and renew medicine s goals

Improving Characterization of Anthropogenic Methane Emissions in the United States National Academies of Sciences, Engineering, and Medicine, Division on Earth and Life Studies, Board on Environmental Studies and Toxicology, Board on Energy and Environmental Systems, Board on Earth Sciences and Resources, Board on Agriculture and Natural Resources, Board on Atmospheric Sciences and Climate, Committee on Anthropogenic Methane Emissions in the United States: Improving Measurement, Monitoring, Presentation of Results, and Development of Inventories, 2018-07-25 Understanding quantifying and tracking atmospheric methane and emissions is essential for addressing concerns and informing decisions that affect the climate economy and human health and safety Atmospheric methane is a potent greenhouse gas GHG that contributes to global warming While carbon dioxide is by far the dominant cause of the rise in global average temperatures methane also plays a significant role because it absorbs more energy per unit mass than carbon dioxide does giving it a disproportionately large effect on global radiative forcing In addition to contributing to climate change methane also affects human health as a precursor to ozone pollution in the lower atmosphere Improving Characterization of Anthropogenic Methane Emissions in the United States summarizes the current state of understanding of methane emissions sources and the measurement approaches and evaluates opportunities for methodological and inventory development improvements This report will inform future research agendas of various U S agencies including NOAA the EPA the DOE NASA the U S Department of Agriculture USDA and the National Science Foundation NSF

Learning to Love Sue M. Holdsworth, 2024-08-23 Many churches actively seek to welcome migrants through various church based activities such as language lessons cooking or gardening clubs These and similar activities often aim to be missional or evangelistic seeking to communicate the love of God and neighbor The author explores how the love of God and neighbor can be expressed effectively through the implementation of pastoral care principles and practices These include expressing love through empathy hospitality group prayer and spiritual formation When the functions of pastoral care are evident mission and evangelism occur naturally and at the appropriate time This book is the result of the author s PhD study of four church based intercultural initiatives aimed at welcoming migrants Two churches offering English conversation classes a sewing club and employment training classes were observed Volunteers and pastoral staff were interviewed and church documents were examined This empirical research demonstrates that when volunteers are trained in principles and practices of pastoral care when church systems and supervision support

them in their tasks and when group planning and reflection occur the love of God and neighbor will be effectively expressed to migrants attending these initiatives
