

Munkres - Topology - Chapter 3 Solutions

Section 24

Problem 24.3.

Solution: Define $g : X \rightarrow \mathbb{R}$ where $g(x) = f(x) - i_X(x) = f(x) - x$ where i_X is the identity function. Since f and i_X are continuous, g is continuous by Theorems 18.2(e) and 21.5. Since X is connected for all three possibilities given in this problem and \mathbb{R} is ordered, the intermediate-value theorem applies.

For $X = [0, 1]$, observe that $g(0) \geq 0 - 0 = 0$ and $g(1) \leq 1 - 1 = 0$. Clearly if either $g(0)$ or $g(1)$ equals 0, then there is an $x_0 \in X$ where $f(x_0) = x_0 = 0$, so $f(x_0) = x_0$. Otherwise, $g(0) > 0$ and $g(1) < 0$, so by the intermediate-value theorem there is some $x_1 \in X$ where $g(x_1) = 0$, so $f(x_1) = x_1$.

The proposition is not necessarily true if $X = [0, 1]$ or $X = (0, 1)$. Let $f(x) = (1+x)/2$, which is obviously continuous. It follows that $f(x) = x$ if and only if $x = 1$, which not in X .

Problem 24.4.

Solution: If X has only one element, it is trivially a linear continuum, so we will assume X has at least two elements. Let $x, y \in Y$ where $x < y$. Since X is connected, $(-\infty, y)$ and (x, ∞) cannot be a separation of the space. Since the two open sets are clearly non-empty, it must be that they are not disjoint. Therefore there is some $z \in (-\infty, y) \cap (x, \infty)$, from which it follows that $x < z$ and $z < y$. We infer that $x < z < y$.

Next, let Y be a non-empty subset of X that is bounded above, and suppose Y has no supremum. Define $M = \{x \in X : m \geq y \text{ for all } y \in Y\}$ (in other words, the set of upper bounds of Y). Since Y is bounded above, M is non-empty. Then let $A = \bigcup_{y \in Y} (-\infty, y)$ and $B = \bigcup_{m \in M} (m, \infty)$. It follows that A and B are a separation of X , contradicting that X is connected. Given $x_0 \in X$, if $x_0 < y$ for some $y \in Y$, then $x_0 \in (-\infty, y) \subset A$. On the other hand, if $x_0 \geq y$ for all y , then there is some $m \in M$ such that $m < x_0$, so $x_0 \in (m, \infty) \subset B$. Hence A and B partition X . Further, if $x_1 \in A \cap B$, then $x_1 < y$ for some $y \in Y$ and $x_1 > y'$ for all $y' \in Y$, which is impossible. Therefore A and B are disjoint. Since A and B form an impossible separation of X , we conclude that Y must have a supremum. Accordingly, X is a linear continuum.

Problem 24.4.

Solution: Given $x, y \in X \times [0, 1]$ where $x < y$, we have $x = x_0 \times x_1$ and $y = y_0 \times y_1$. Since $[0, 1]$ is a linear continuum, if $x_0 < y_0$, let $z_1 \in (x_1, 1)$; if $x_0 = y_0$, let $z_1 \in (x_1, y_1)$. Hence if $z = x_0 \times z_1$, then $x < z < y$.

Now let U be a non-empty subset of $X \times [0, 1]$ that is bounded above. Define $M = \{m \in X \times [0, 1] : m \geq a \text{ for all } a \in U\}$, which is the set of all upper bounds of U . Since X is well-ordered, we're assured that M is non-empty. Designate $U' = \{\pi_1(m) : m \in M\}$, which must be a non-empty subset of X . Since X is well-ordered, there is a least element x' of U' . If $x' \notin \pi_1(U)$, then $x' \times 0 > a$ for all $a \in U$. Further, if $x'' < x'$, then any element of $x'' \times [0, 1]$ must be less than some element of U because no upper bound of U has a first coordinate less than x' . Hence $x' \times 0$ is the supremum of U . On the other hand, if $x' \in \pi_1(U)$, the set $V = \{\pi_2(a) : a \in U\}$ is a non-empty subset of $[0, 1]$ that is bounded above by 1, so it has a supremum y' . Accordingly, if $c \in [0, y']$, there is some $d > c$ such that $x' \times d \in U$, which is greater than $x' \times c$. Therefore $x' \times y'$ is the supremum of U , and $X \times [0, 1]$ has the supremum property. We conclude that $X \times [0, 1]$ is a linear continuum.

Problem 24.9.

Solution: Designate $X = \mathbb{R}^2 \setminus A$, and let $x, y \in X$ be given. If there is no element of A on the straight-line path in \mathbb{R}^2 from x to y , then there is obviously a path between the two points by exercise 24.8(a). In the non-trivial case where there is an element of A on the straight-line path between x and y , designate $D_0 = \{\theta \in [0, 2\pi) : \tan^{-1}[(\pi_2(y) - \pi_2(x))/(\pi_1(y) - \pi_1(x))] \neq \theta \text{ for all } a \in A\}$, which are all the angles around x for which there is no element of A on the straight line passing through x at that angle. We will show that D_0 is not empty. Assume the contrary is true and D_0 is empty. It would follow that for every element of the interval $[0, 2\pi)$, there is some element of A on the line at that angle. Consequently, there is an injection from $[0, 2\pi) \rightarrow A$. Because A is countable, there would be an injection from $[0, 2\pi) \rightarrow \mathbb{N}$, establishing that $[0, 2\pi)$ is countable, a contradiction. Therefore D_0 is not empty. Choose an arbitrary θ_0 from D_0 .

Munkres Topology Solutions Chapter 3

Munkres Topology Solutions Chapter 3:

This is likewise one of the factors by obtaining the soft documents of this **Munkres Topology Solutions Chapter 3** by online. You might not require more period to spend to go to the ebook creation as capably as search for them. In some cases, you likewise accomplish not discover the pronouncement Munkres Topology Solutions Chapter 3 that you are looking for. It will enormously squander the time.

However below, bearing in mind you visit this web page, it will be appropriately unconditionally easy to acquire as capably as download lead Munkres Topology Solutions Chapter 3

It will not undertake many period as we notify before. You can attain it even though measure something else at house and even in your workplace. consequently easy! So, are you question? Just exercise just what we have enough money below as with ease as review **Munkres Topology Solutions Chapter 3** what you gone to read!

Munkres Topology Solutions Chapter 3 Introduction

In the digital age, access to information has become easier than ever before. The ability to download Munkres Topology Solutions Chapter 3 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Munkres Topology Solutions Chapter 3 has opened up a world of possibilities. Downloading Munkres Topology Solutions Chapter 3 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Munkres Topology Solutions Chapter 3 has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Munkres Topology Solutions Chapter 3. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Munkres Topology Solutions Chapter 3. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Munkres Topology Solutions Chapter 3, users should also

consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Munkres Topology Solutions Chapter 3 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Munkres Topology Solutions Chapter 3 Books

What is a Munkres Topology Solutions Chapter 3 PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it.

How do I create a Munkres Topology Solutions Chapter 3 PDF? There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF.

How do I edit a Munkres Topology Solutions Chapter 3 PDF? Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities.

How do I convert a Munkres Topology Solutions Chapter 3 PDF to another file format? There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobat's export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like

Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats.

How do I password-protect a Munkres Topology Solutions Chapter 3 PDF? Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities.

Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as:

LibreOffice: Offers PDF editing features.

PDFsam: Allows splitting, merging, and editing PDFs.

Foxit Reader: Provides basic PDF viewing and editing capabilities.

How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss.

Compression reduces the file size, making it easier to share and download.

Can I fill out forms in a

PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
