The Essays of Arthur Schopenhauer; On Human Nature Arthur Schopenhauer, 2020-03-06 Excerpt The following essays are drawn from the chapters entitled Zur Ethik and Zur Rechtslehre und Politik which are to be found both in Schopenhauer's Parerga and in his posthumous writings As in my previous volumes so also in this I have omitted a few passages which appeared to me to be either antiquated or no longer of any general interest For convenience sake I have divided the original chapters into sections which I have had to name and I have also had to invent a title which should express their real scope The reader will find that it is not so much Ethics and Politics that are here treated as human nature itself in various aspects

Arthur Schopenhauer (22 February 1788 – 21 September 1860) was a German philosopher. He is best known for his 1818 work *The World as Will and Representation*, in which he argues that the phenomenal world is driven by a metaphysical will that perpetually and malignantly seeks satiation. He also wrote influentially on aesthetics, ethics, and religion. Transcendental idealism formed the basis for much of his thought, and his atheistic philosophy has been described as an exemplary manifestation of philosophical pessimism. Finding his philosophical conclusions to be compatible with those of much Eastern philosophy, his solutions to the problems of existence and suffering were consequently similar to those of Vedantic and Buddhist thinkers. Schopenhauer's influence has proven profound across various disciplines; those who have cited his influence include Friedrich Nietzsche, Richard Wagner, Leo Tolstoy, Ludwig Wittgenstein, Erwin Schrödinger, Sigmund Freud, Albert Einstein, Otto Rank, Carl Jung, Joseph Campbell, Thomas Mann, and Jorge Luis Borges, among others. [Essays of Schopenhauer](#) Arthur Schopenhauer, 2010-06-01. These essays are a valuable criticism of life by a man who had a wide experience of life, a man of the world who possessed an almost inspired faculty of observation. Schopenhauer, of all men, unmistakably observed life at first hand. There is no academic echo in his utterances; he is not one of a school; his voice has no formal intonation; it is deep, full-chested, and rings out its words with all the poignancy of individual emphasis without bluster but with unfailing conviction. He was, for his time and for his country, an adept at literary form, but he used it only as a means.

Essays of Schopenhauer Arthur Schopenhauer, 2015-11-20. When Schopenhauer was asked where he wished to be buried, he answered, "Anywhere; they will find me, and the stone that marks his grave at Frankfurt bears merely the inscription: Arthur Schopenhauer, without even the date of his birth or death. Schopenhauer, the pessimist, had a sufficiently optimistic conviction that his message to the world would ultimately be listened to, a conviction that never failed him during a lifetime of disappointments, of neglect in quarters where perhaps he would have most cherished appreciation, a conviction that only showed some signs of being justified a few years before his death. Schopenhauer was no opportunist; he was not even conciliatory; he never hesitated to declare his own faith in himself, in his principles, in his philosophy; he did not ask to be
