Jürgen Beyer, 2017-03-27 Lay prophets in Lutheran Europe c 1550 1700 is the first transnational study of the phenomenon of angelic apparitions in all Lutheran cultures of early modern Europe Jürgen Beyer provides evidence for more than 350 cases and analyses the material in various ways tracing the medieval origins studying the spread of news about prophets looking at the performances legitimising their calling noting their comments on local politics following the theological debates about prophets and interpreting the early modern notions of holiness within which prophets operated A full chronology and bibliography of all cases concludes the volume Beyer demonstrates that lay prophets were an accepted part of Lutheran culture and places them in their social political and confessional contexts *The Dala Law* Inger Larsson, 2024-11-15 The Dala Law is known through only one remaining medieval manuscript written c 1335 1353 and shows strong influence from older Swedish provincial law It is one of the oldest known texts revealing details of life and conditions in medieval Dalar during the thirteenth and early fourteenth centuries Contradicting older assumptions that this might have been an older law of V stmanland the Dala Law is well adapted to prevailing conditions in medieval Dalarna Dalar In contrast to most provincial laws where the lawman had a central position in the Dala Law it is the written word the law book that is addressed and appealed to Although the text is comparatively short this English translation is an important tool for facilitating the internationalisation of Swedish research and making Nordic material more accessible for international scholars Aided by maps which show medieval Dalarna V stmanland and the value of the mining industry in the area this text provides crucial insight into the history life and culture of medieval Dalar which has never been seen before in the English language With an Introduction that places medieval Dalarna Dalar in its geographical judicial and ecclesiastical contexts The Dala Law is an essential resource for all students and scholars interested in medieval Swedish history and law *Handbook of BRICS and Emerging Economies* PB Anand, Shailaja Fennell, Flavio Comim, 2020-12-16 Ever since Jim O Neill at Goldman Sachs coined the term BRICS in 2001 there have been many different assessments of these major emerging economies with some even proclaiming that the promise of the BRICS comprising Brazil Russia India China and South Africa is over However the so called arranged marriage still seems to be working well with the club having become a formal international forum with summit declarations ministerial meetings and numerous BRICS wide fora Is this euphoria misplaced Is there a BRICS model of economic and human development Are inequalities increasing and is this the denouncement of the economic successes Are geo political tensions rising between these nations During the post COVID 19 situation the importance of bilateral and multilateral co operation mechanisms and institutions is becoming clear This book focuses on one such emerging co operation mechanism of BRICS but also more widely on those five countries and other similar economies As a global depression looms large global economic recovery depends on the performance of not only its largest economies but also

many other important and significant economies within the so called G20 group Even prior to the COVID 19 outbreak multilateral institutions have been under considerable strain as with the relationship between the United States of America and China and risks to global economic recovery appear very real This book brings together multi disciplinary perspectives from over sixty scholars and it presents a comprehensive and deep dive into the BRICS and emerging economies and into an understanding the political economic and social contexts that can help in designing approaches for recovery and regaining the last momentum in the journey towards the Sustainable Development Goals

scholars to address the morality of war from a comparative perspective While conceptions of when to enter war *jus ad bellum* and how to fight war *jus in bello* have been well researched in Western liberal contexts non Western philosophies have been largely excluded from debate This volume seeks to correct that imbalance by addressing concrete examples alongside concepts of Confucian Yi Rightness Ahimsa feminism class struggles Ubuntu anarchism pacifism Buddhism Islam Jihad among others Comparative Just War Theory provides a global conceptual framework to deal with the morality of war in our modern world With fresh insights into how the normative problems that arise from just war can be addressed the book will be a valuable resource for a wide variety of students scholars and policymakers *Made in Finland* Toni-Matti Karjalainen, Kimi Kärki, 2020-10-26 *Made in Finland* Studies in Popular Music serves as a comprehensive and thorough introduction to the history culture and musicology of twentieth and twenty first century popular music in Finland The volume consists of essays by leading scholars in the field and covers the major figures styles and social contexts of popular music in Finland Each essay provides adequate context so readers understand why the figure or genre under discussion is of lasting significance The book is organized into five thematic sections Emerging Foundations of Popular Music in Finland Environments Borderlines Minorities Transnationalisms Sounds from the Underground and Redefining Finnishness **The Archaeology of Slavery in Early Medieval Northern Europe** Felix Biermann, Marek Jankowiak, 2021-11-18 This volume is the first comprehensive study of the material imprint of slavery in early medieval Europe While written sources attest to the ubiquity of slavery and slave trade in early medieval British Isles Scandinavia and Slavic lands it is still difficult to find material traces of this reality other than the hundreds of thousands of Islamic coins paid in exchange for the northern European slaves This volume offers the first structured reflection on how to bridge this gap It reviews the types of material evidence that can be associated with the institution of slavery and the slave trade in early medieval northern Europe from individual objects such as e g shackles to more comprehensive landscape approaches The book is divided into four sections The first presents the analytical tools developed in Africa and prehistoric Europe to identify and describe social phenomena associated with slavery and the slave trade The following three sections review the three main cultural zones of early medieval northern Europe the British Isles Scandinavia and Slavic central Europe The contributions offer methodological reflections on the concept of the archaeology of slavery They emphasize that the material record by its nature admits multiple interpretations More broadly this book comes at a time when the history of slavery is being integrated into academic syllabi in most western countries The collection of studies contributes to a more nuanced perspective on this important and controversial topic This volume appeals to multiple audiences interested in comparative and global studies of slavery and will constitute the point of reference for future debates **Paper Sovereigns** Jeffrey Glover, 2014-05-14 In many accounts of Native American history treaties are synonymous with tragedy From the beginnings of settlement Europeans made and broke treaties often exploiting Native American lack of alphabetic literacy to manipulate political negotiation But while colonial dealings had devastating results for

Native people treaty making and breaking involved struggles more complex than any simple contest between invaders and victims The early colonists were often compelled to negotiate on Indian terms and treaties took a bewildering array of shapes ranging from rituals to gestures to pictographs At the same time Jeffrey Glover demonstrates treaties were international events scrutinized by faraway European audiences and framed against a background of English Spanish French and Dutch imperial rivalries To establish the meaning of their agreements colonists and Natives adapted and invented many new kinds of political representation combining rituals from tribal national and religious traditions Drawing on an archive that includes written documents printed books orations landscape markings wampum beads tally sticks and other technologies of political accounting Glover examines the powerful influence of treaty making along the vibrant and multicultural Atlantic coast of the seventeenth century
