Toward a Sacramental Poetics Regina M. Schwartz, Patrick J. McGrath, 2021-12-15 Distinguished theologians and literary scholars explore the workings of the sacred and the sacramental in language and literature What does a sacramental poetics offer that secular cultural theory for all of its advances may have missed How does a sacred understanding of the world differ from a strictly secular one This volume develops the theory of sacramental poetics advanced by Regina Schwartz in her 2008 book on English Reformation writers taking the theory in new directions while demonstrating how enduring and widespread this poetics is Toward a Sacramental Poetics addresses two urgent questions we have inherited from a half century of secular critical thought First how do we understand the relationship between word and thing sign and signified other than as some naive direct representation or as a completely arbitrary language game And second how can the subject experience the world beyond instrumentalizing it The contributors conclude that a sacramental poetics responds to both questions offering an understanding of the sign that by pointing beyond itself suggests wonder The contributors explore a variety of topics in relation to sacramental poetics including political theology miracles modernity translation and transformation and the metaphysics of love They draw from diverse resources

from Dante to Hopkins from Richard Hooker to Stoker's Dracula from the King James Bible to Wallace Stevens Toward a Sacramental Poetics is an important contribution to studies of religion and literature the sacred and the secular literary theory and theologies of aesthetics Contributors Regina M Schwartz Patrick J McGrath Rowan Williams Subha Mukherji Stephen Little Kevin Hart John Milbank Hent de Vries Jean Luc Marion Ingolf U Dalferth Lori Branch and Paul Mariani

The Room and the World Laura McCullough, 2015-01-01 The Room and the World Essays on the Poet Stephen Dunn is the first book of its kind to explore and unpack the Pulitzer winning poets oeuvre Including twenty four essays a foreword by poet and essayist Dave Smith and an introduction by Laura McCullough this anthology illuminates Dunn s development as a writer his thematic obsessions and his strategies and maneuvers on the page it also locates him in the pantheon of essential American poets Philosophical funny and founded on the juxtaposition of ideas with masterful tonal layering and texture Dunn s poems are considered some of the best of his generation. The contributing poets and scholars including Dunn s contemporaries and former students highlight Dunn s meditations on freedom and constraint sexuality and sorrow sound and sense and the mystery in the dailiness of living Fans will find this a crucial text that reveals the complexities of Dunn's poetry Silence: A User's Guide, Volume One Maggie Ross, 2014-09-10 Silence is essential for and much about the man himself the health and well being of humans and the environment in which they live Yet silence has almost vanished from our lives and our world Of all the books that claim to be about silence this is the only one that addresses silence directly Silence A User's Guide is just what the title says it is a guide to silence which is both a vast interior spaciousness and the condition of our being in the natural world This book exposes the processes by which silence can transfigure our lives what Maggie Ross calls the work of silence it describes how lives steeped in silence can transfigure other lives unawares It shows how the work of silence was once understood to be the foundation of the teaching of Jesus and how this teaching was once an intrinsic part of Western Christianity it describes some of the methods by which the institution suppressed the work of silence and why religious institutions are afraid of silence Above all this book shows that the work of silence gives us a way of being in the world that is more than we can ask for or imagine **Canadian Primal** Mark Dickinson, 2021-02-18 Over the past few decades a group of writers we might call the Thinking and Singing poets have stood at the forefront of poetry in Canada These five poets Dennis Lee Don McKay Robert Bringhurst Jan Zwicky and Tim Lilburn are major voices in an era of ecological devastation and spiritual unease Their diverse questioning work suggests new ways to confront some of the most pressing issues of our time In vibrant prose Mark Dickinson explores the relationship between the lives of these poets and their writing examining their intersecting careers and friendships and the ways they learned from and challenged one another Canadian Primal uses an unconventional approach blending biography with literary analysis and drawing from meetings and correspondence with each poet over many years to trace the people and events that inspired the creation of important texts Dickinson tracks how each of the writers arrived at poetry as a way of being and at the heart of their poetics

he finds both a musical intelligence and the crucial importance of the land Canadian Primal is literary biography reconceived as an adventure of the mind body and spirit Ebullient intelligent and eminently readable it reminds us that we can live on the earth in a different way true to the defining experiences of our lives surrounded by meaning and presence beyond our **Once upon a Time in the West** Jan Zwicky, 2023-05-15 Western civilization is over So begins Jan Zwicky s trenchant exploration of the root of global cultural and ecological collapse a way of thinking that is also linked to some of the West's most noted achievements. The Renaissance merged imperial enterprise with Islamic algebra and recently recovered Greek mathematics to precipitate mechanized industry and resource extraction these in turn made possible the growth of capitalism the military industrial complex and Big Technology Despite its self image as objective Zwicky argues the West s style of thought is not politically neutral but intensely anthropocentric It has led those who adopt it to regard the more than human world as nothing more than timber licences and drilling sites where value is not recognized unless it is monetized Oblivious to context and blind to big picture thinking it analyzes mechanizes digitizes and systematizes while rejecting empathy and compassion as distorting influences Lyric comprehension in Zwicky s view offers an alternative to this way of thinking and she provides a wide range of examples Once upon a Time in the West documents how a narrow epistemological style has left Western thought blind to critical features of reality and how the terrifying consequences of that blinkered vision are now beginning to unfold CanLit Across Media Jason Camlot, Katherine McLeod, 2019-12-12 The materials we turn to for the construction of our literary pasts the texts performances and discussions selected for storage and cataloguing in archives shape what we know and teach about literature today The ways in which archival materials have been structured into forms of preservation in turn impact their transference and transformation into new forms of presentation and re presentation Exploring the production of culture through and outside of the archives that preserve and produce CanLit as an entity CanLit Across Media asserts that CanLit arises from acts of archival critical and creative analysis Each chapter investigates challenges and provokes this premise by examining methods of unarchiving Canadian and Indigenous literary texts and events from the 1950s to the present Engaging with a remediated archive or unarchiving allows the authors and editors to uncover how the materials that document past acts of literary production are transformed into new forms and experiences in the present The chapters consider literature and literary events that occurred before live audiences or were broadcast and that are now recorded in print publications and documents drawings photographs flat disc records magnetic tape film videotape and digitized files Showcasing the range of methods and theories researchers use to engage with these materials CanLit Across Media reanimates archives of cultural meaning and literary performance Contributors include Jordan Abel University of Alberta Andrea Beverley Mount Allison University Clint Burnham Simon Fraser University Jason Camlot Concordia University Joel Deshaye Memorial University of Newfoundland Deanna Fong Simon Fraser University Catherine Hobbs Library and Archives Canada Dean Irvine Agile Humanities Karl Jirgens University of Windsor Marcelle Kosman

The series empirical approaches to language typology presents a platform for contributions of all kinds to this rapidly developing field The distinctive feature of the series is its markedly empirical orientation All conclusions to be reached are the result of a deepened study of empirical data General problems are focused on from the perspective of individual languages language families language groups or language samples Special emphasis is given to the analysis of phenomena from little known languages which shed new light on long standing problems in general linguistics The series is open to contributions from different theoretical persuasions It thus reflects the methodological pluralism that characterizes the present situation Care is taken that all volumes be accessible to every linguist and moreover to every reader specializing in some domain related to human language A deeper understanding of human language in general based on a detailed analysis of typological diversity among individual languages is fundamental for many sciences not only for linguists Therefore this series has proven to be indispensable in every research library be it
