Book Review Essay Introduction

The book "The Foreigner's Gift: the Americans, the Arabs and the Iraqis in Iraq" by Fouad Ajami provides detailed overview of the events taken place in the mentioned countries as well as the author offers his unique vision of those events. The author is rather persuasive, because he uses logical arguments, conclusions, facts and viewpoints of different critics to defend his position. It is necessary to outline that findings presented in the book significantly contribute the evidence that events in America, Iraq and Arab countries are rather contradictory and disputable. The issues raised in the book are a matter of concern of many other writers, historians and politicians. The author is rather concerned with war in Iraq defining it as "an orphan in the court of public opinion". (Ajami 2006) The author thinks that such definition is precisely characterizes the fact that "these days even some of those who had campaigned in favor of the war now sound apologetic or even critical". (Ajami 2006) According to Ajami, the war in Iraq ensured support of more than 70% of Americans and thus caused rather enthusiastic endorsement in the US Congress and media. Nevertheless, nowadays situation has dramatically changed and support decreased to 30%.

The author argues that it is difficult to say whether the war may be considered just and necessary. Furthermore, Ajami asserts that to achieve the understanding one should use the help of "detailed arguments based on facts and backed by his deep understanding of the complex politics of the Middle East". (Ajami 2006) Therefore, the book is surely a deconstruction and critique of cultural, political and military war in Iraq initiated by Sunni Arabs and the author strongly objects to political rise of Shia. He says: "An old order of dominion and primacy was shattered in Iraq. The rage against this American war, in Iraq itself and in the wider Arab world, was the anger of a culture that America had given power to the Shia stepchildren of the Arab world - and to the Kurds".

(Ajami 2006) The author assumes that the opposition of Arab countries to Shia has changed even the American policy meaning that Bush's policy has been changed due to "bureaucratic infighting" in his administration: "There are reports, exaggerated by the telling, that Iranian charities and political-religious operatives from the larger Persian state next door are run
