

Example of Annotated Bibliography in MLA Format (with Evaluations of the Source)

The diagram illustrates the MLA format for an annotated bibliography with two entries. Red handwritten annotations with arrows point to specific formatting elements.

Entry 1:

Citation: Doerr, John. *Measure What Matters: How Google, Bono, and the Gates Foundation Rock the World with OKRs*. Penguin, 2018.

Annotation: This book is written by Doerr, who is the chair of a venture capitalist group. The book describes how business organizations can use OKRs to drive the focus of a company through agility, which leads to explosive growth. There are first-person, behind the scenes case studies narrated by leaders like Bill Gates and Bono. This book helps guide understanding of business and management strategies that drive the success of large companies.

Annotations:

- Centered:** Points to the citation.
- 1 inch margin:** Points to the top margin.
- 1/2 inch:** Points to the indentation of the first line of the annotation.
- 1 inch margin:** Points to the right margin.
- Summary:** Points to the annotation text.

Entry 2:

Citation: Wilson, John Philip. *When the Texans Came: Missing Records from the Civil War in the Southwest*. UNM Press, 2001.

Annotation: This book contains 282 original letters, song lyrics, casualty lists, transcripts of witness testimony, original newspaper accounts. It's a supplement to the anthology published in 128 volumes "The War of the Rebellion: A compilation of the Official Records of the Union and Confederate Armies". The author is a historian-archaeologist. This book is an excellent source for primary documents and offers a fresh narrative of the civil war in the New Mexico territory. Many people think of the Civil War as a battle between the Union and the Confederacy. This book gives the Civil War history researcher a glimpse at the battles happening in the Southwest, as well.

Annotations:

- 1 inch margin:** Points to the left margin.
- Evaluation:** Points to the annotation text.

Tips:

- Clear font like Times New Roman, 12 pt., double spaced
- 1 inch margins throughout
- Last name and page number 1/2 inch down, right aligned
- List authors in alphabetical order
- First line of annotation indented 1/2 inch

Language, Corpora, and Technology in Applied Linguistics Muhammad Afzaal, Swaleha Bano Naqvi, Geng Qiang, 2023-11-27 As culture and society has become more digitalized especially when computer science and digital technologies have entered a new era in the twenty first century translation studies began to utilize a wide range of tools to enhance its reading of texts and contexts without which translation both as a practice and as a theorization could barely persist It has become more apparent that two extreme poles between macro and micro visions have formed the diversified terrains of translation studies On the one hand technologies like NLP topic modeling network analysis and data visualization make distant reading become possible thus allowing us to have a paradigmatic view of how human s ideas beliefs values knowledge and even emotions have spread in some patterns across cultural geographical and language divides in world history On the other hand corpus methods such as the use of keywords collocates and concordance lines changed the way by which texts were closely read from linear to vertical With microscope like corpus tools we could go deeper into the texture for perception of nuanced meaning While considering a fact that translation is seldom mono modal in conveying meaning we have to reconceptualize context as a multimodal environment where audio visual and other resources interact to convey and make meaning With regard to the fast development of digital technology translation studies take an active role in gaining an enhanced capability in promoting transformation Complexity has been favored in terms of theoretical framework and methodology New questions are asked old ones revisited with novel tools but more areas wait to be cultivated and more questions to be approached by combining

quantitative and qualitative methods We could ask if digital technologies would bring new innovation to study of translation history a heavily walled land for traditional humanists who tend to repeat so what to question the less significance of data driven studies The idea of high quality machine translation has become so realistic in today s market that translation educators have to face the shock wave it brought to translation learners and practitioners and rethink the relation between human translators and algorithms Machine translation assisted communication could help remove boundaries for better communication but at the same time it also creates conflicts and leads to confrontation Thus understood it is imperative to give a concerned attention to digital translation studies that is to study translation by resorting to and drawing on the digital technologies This Research Topic is intended to promote current directions and new developments in cross disciplinary critical discourse research We welcome papers which from a critical analytical perspective deal with contemporary social scientific political economic or professional discourses and genres Papers addressing the highlighted topics are especially welcome In giving weight to these topics we wish to call to attention some of the most pressing problems currently facing the world
