Kidnapping and Abduction Brian John Heard, 2014-12-01 Terrorist groups and organized crime cartels pose an increasing threat of kidnapping throughout many regions in the world At the same time international travel has become more commonplace for both business and leisure purposes Kidnapping and Abduction Minimizing the Threat and Lessons in Survival provides a practical guide on the precautions tra

Counterpredators Bill Kortenbach, 2012-12-14 Counterpredators is a modern solution to an ancient problem Parents face the overwhelming responsibility of training their children to navigate the threat environment and safely molding them into powerful self aware authentic adults At the same time many parents do not themselves possess the necessary skill set and when their children sense this they begin to adopt questionable heroes and role models In the natural world animal parents train their young by repeatedly exposing them to hazard while demonstrating efficient risk management yet our society teaches us to do the exact opposite Shelter and protect our children from whatever might harm them As a result many children are profoundly unprepared to deal with real threat Since both animal and human young are equally vulnerable it is easy to spot the weak link The unprepared human parent To solve this problem parents need to assume a powerful new identity something unique

and elemental that rivets the attention and imagination of their children They must become counterpredators individuals who have the skill and the will to engage and overcome human threats Counterpredators is the story of how to achieve this transition using cutting edge methodology Survival Response Conditioning the re activation of dormant subconscious survival skills combined with high pressure scenario based experiences produces rapid permanent change and provides the launch pad for an unbreakable bond of love and respect between parents and children **The Security Society** Francis

Dodsworth,2019-05-07 This book provides a critical engagement with the idea of the security society which has been the focus of so much attention in criminology and the social sciences more broadly Security has been argued to constitute a new mode of social ordering displacing the disciplinary society that Foucault saw as characteristic of the liberal era He saw a control society or risk society characteristic of Neo Liberalism in which the deviant behaviour of particular individuals as less important than general attempts to offset risk and reduce harm Dodsworth argues that much of this literature is extraordinarily present ist in orientation denying the long history of attempts to mitigate risk prevent harm and manage security which have always been a part of the government of order This book develops a critical history of security a thematic analysis of debates about security and aspects of the security society which puts contemporary arguments and practices in dialogue with the texts and practices of the past In doing so the book develops a cultural analysis of the meanings of security and the way these meanings have been articulated in particular practical contexts in order to understand how the promise of security has so effectively captured the imagination and channeled the effective engagement of people throughout the modern period Tribe of Survive J & C,2012-07-24 You will not learn how to eat a tree but rather how you and your loved

ones can live comfortably during the terrible disasters that are surely to come This book is not all inclusive as there is no such thing You WILL learn of those items that have been thoroughly tested for preparedness and survival Each topic goes right to the point There is no flowery rhetoric or page fillers to make this a thick book The only goal of this book is to KEEP YOU ALIVE to prepare you mentally and physically to get you ready for any bad times BEFORE they arrive All treatise in this book are interchangeable to meet any disaster Only a very few of these items listed have but one use Most everything can be used for camping or outdoor indoor activities and absolutely none are a waste of money Knowledge is power the more the better This book attempts to show items valuable in any emergency however small or large and everything in this book is defensive You will find synopses of various scenarios that could devastate this great country so you will have some cursory knowledge of the evil that men can do and the power of an angry Mother Nature **Deconstructing Martial Arts** Paul

Bowman,2019-06-24 What is the essence of martial arts What is their place in or relationship with culture and society Deconstructing Martial Arts analyses familiar issues and debates that arise in scholarly practitioner and popular cultural discussions and treatments of martial arts and argues that martial arts are dynamic and variable constructs whose meanings and values regularly shift mutate and transform depending on the context It argues that deconstructing martial arts is an

invaluable approach to both the scholarly study of martial arts in culture and society and also to wider understandings of what and why martial arts are Placing martial arts in relation to core questions and concerns of media and cultural studies around identity value orientalism and embodiment Deconstructing Martial Arts introduces and elaborates deconstruction as a rewarding method of cultural studies *Udeř a uteč!* Mgr.
