THE RESULT You will be able to CREATE to IMPLEMENT in the Spirit powerful systems logistics and operations for the LORD and for yourself your career and your family. *Faith Physics* Nathan V. Hoffman, 2021-03-15 Faith Physics is a new Theory of Everything ToE combining ancient spiritual wisdom and modern quantum physics findings to deliver a belief system that is both intellectually sound and spiritually satisfying. It maintains an ineffable Supreme Consciousness is the catalyst of all material creation as a great thought through pure white light in zero point morphogenetic quantum fields. Faith Physics claims that consciousness is the cornerstone of base reality existing in a timeless state of now. By using the natural cause and effect laws of classical physics, the uncertainty principle of quantum mechanics and dark matter energy, Faith Physics posits pure consciousness manifests physical creation in a remarkable myriad of forms. In the wave particle duality paradigm revealed by quantum mechanics, conscious observation transforms light energy into particulate physical matter as condensed or frozen light in accordance with Albert Einstein's famous $E=mc^2$ equation. Faith Physics teaches us we exist and thrive in a unified participatory universe emanating from an eternal Supreme Consciousness source and we are not just a product of random chance evolution. In the 21st century, religion and science are reaching an enlightened consensus that pure metaphysical consciousness is perpetually painting a picture on the space-time continuum canvas depicting a miraculous cycle of physical creation, entropy, and cosmic rebirth.

Prayer, Quantum Physics and Hotel Mattresses Jim Berge, 2012-02-21 God's creation is so intimately intertwined that we cannot separate the visible from the invisible. The unseen thoughts, emotions, and matters of the Spirit have dramatic impact on the seen stuff we deal with every day. Prayer, Quantum Physics and Hotel Mattresses strives to integrate the visible and invisible aspects of life, prayer representing the spiritual and relational side of life, quantum physics representing the fundamental and scientific aspects of ultimate reality, and the physical world in which we live, and hotel mattresses representing the everyday stuff and situations to which we apply our faith. You will learn Science and the Bible are not in competition; they are totally different but complementary and they stand side by side as two of the most significant revelations of God. God wants to be intimately involved in every aspect of our lives, not just our worship on Sunday mornings. There is an intimately spiritual nature in your everyday life. How to better understand the physical world and enter into a deeper intimacy with the Creator God. *The Physics of Heaven* Judy Franklin, Ellyn Davis, 2015-09-15 Some of the most influential and prophetic voices of the Spirit-empowered movement have joined together to help you start hearing the sounds of heaven and discover how natural elements, sound, light, energy

Another Self-Help Book: Why We Get Stuck in Life and How You Can Move Forward* Dr. John C. Panepinto,2024-06-01 Getting stuck in life happens Whether you have a vision for your future or feel aimless everyone gets stuck sometimes And it can happen more than once Living authentically presents problems and sometimes we create them without knowing If you don't know why you can't let go or move ahead you'll stay stuck You'll remain on the not so merry go round of stuckness waiting for answers To move forward you have to ask the right questions Not Another Self Help Book is truly not another self help book

Written as a conversation you wish you had or didn't realize you needed to have you'll engage in topics everyone needs to explore and make sense of. Talks we'd have if we would slow down the busy-ness of life. Getting stuck and staying stuck has become a way of life for an increasing number of individuals and families. The rising numbers of anxiety, depression, and hopelessness shine a light on this problem. We treat the symptoms but fail to address the core issues. How much longer can we carry on this way? A common mindset lurks beneath these problems: a pervasive and powerful belief system influencing every aspect of our lives. Like fish in water, we move and breathe in this mindset without knowing spaces exist above the surface. If you follow the scripts of this mindset, you end up chasing what you think is important only to find it isn't the thing once you get there. The chase begins again. Each chapter of *Not Another Self-Help Book* guides you through this cultural mindset to the core of growth and development and a different way of being in the world. The concepts and tools help you to ask the right questions. Questions that open the doors and lead through confusion and uncertainty. When you ask the right questions, you will discover the answers you've been waiting for. From the inside out, you develop a mindset that works for you and not against you. You create a vision of your future from the heart of what matters most to you and those who matter most. *Not Another Self-Help Book* provides the substance and direction to get unstuck and confidently move forward. The foundation you build holds even if you get stuck again on your journey. Whenever you need to, you can rely on these life-affirming ideas and get back on track. And you may not ever need another self-help book. *Ordaining Reality* Joseph E. Donlan, 2021-06-06. Many people believe in the power of positive thinking, i.e., how thoughts and attitude can shape their future. Yet despite a plethora of books on this subject, no previous author has credibly explained how mere thoughts are able to tangibly influence future events. To explain the connection, Dr. Donlan presents a new paradigm of nature coupled with a viable explanation of how our right cerebral hemisphere has evolved circuitry that can tap into the hidden domain of the metaphysical. To support this premise, he exposes the reader to the worlds of physics, metaphysics, brain architecture, and evolution. Donlan then introduces the many problems associated with the current model and contrasts it with a new view which remedies many of the issues facing theoretical physicists today. Important to its central theme, the book's proposed paradigm supports the remarkable notion that the future can only be created with thoughts. In the final analysis, the author brings his readers through the necessary steps to put this knowledge to work to help them pre-ordain their own realities.

Donlan, 2009 Many people believe in the Power of Positive Thinking but no one has succeeded in credibly explaining how mere thoughts can tangibly influence future occurrences To explain the connection this book presents a new paradigm of nature and couples it with a convincing explanation of how our right brain hemispheres have a unique ability to tap into the hidden domain of the metaphysical To support this premise the reader is lightly exposed to the divergent worlds of physics and metaphysics and is then introduced to a new view of nature that undeniably links mind to matter Important to its charge the new perspective makes the case that the future can only be created with thoughts In the final analysis the author brings his readers through the necessary steps to put this knowledge to work to help them create their own realities
