PENNSYLVANIA - Today's announcement by CompTel has the Free TV hotline ringing off the hook. That's because Primos area residents who find their zip code listed in today's publication are getting Free TV channels thanks to an amazing near-the-invention called Clear-Cast™.

Primos area residents who call the Toll Free hotline before the 48-hour order deadline to get Clear-Cast can pull in Free TV channels with crystal clear digital picture and no monthly bills.

This announcement is being so widely advertised because a U.S. Federal law makes TV broadcasters transmit their signals in digital format, which allows everyone to receive those over-the-air digital signals for free with no monthly bills.

Here's how it works. Clear-Cast, the sleek micro antenna device with advanced technology links up directly to pull in the Free TV signals being broadcast in your area with crystal clear digital picture and no monthly bills.

Clear-Cast was invented by a renowned NASA Space Technology Hall of Fame scientist who currently holds 11 U.S. Gov't issued patents. For the past 30 years, he has specialized in developing antenna systems for NASA, Motorola, 2M Satellite Radio and companies around the world.

His latest patent-pending invention, Clear-Cast, is a sleek micro antenna device engineered to pull in the Free TV signals through advanced technology with no cable, satellite or internet connection and no monthly bills.

"Clear-Cast is being released to the general public because we just don't think people should keep paying for TV when they can get it for free," said Conrad Miller, Manager of Operations at CompTel.

metropolitan areas may get up to 10 static-free channels, while people in outlying areas will get less. That means even if you're in a rural area that just pulls in NBC, ABC, CBS, FOX and PBS broadcasts there's hundreds of shows each year to watch for free.

Consumers report that the crystal clear picture quality with Clear-Cast is the best they've ever seen. That's because you get virtually all pure uncompressed signals direct from the broadcasters for free.

Clear-Cast was engineered to link up directly like a huge outdoor directional antenna but in a light-weight, slim-line package. Its sturdy copper alloy and polymer construction will most likely be intact your TV.

It just couldn't be any easier to get Free over-the-air digital TV shows with Clear-Cast. Simply plug it into your TV, place Clear-Cast on a window pane and run antenna. It works on virtually any model TV and is easily hidden out of sight behind a curtain or window treatment.

Thousands of Primos area residents are expected to call to get Clear-Cast because it just doesn't make any sense to keep paying for TV when you can get hundreds of shows absolutely free.

So, Primos area residents lucky enough to find their zip code listed in today's publication need to immediately call the Free TV hotline before the 48-hour deadline to get Clear-Cast that pulls in Free TV with crystal clear digital picture. The Dark Side of Speech Carlo Penco, 2024-10-08 What is disinformation and why does it matter How can we understand and detect different kinds of disinformation With an analysis of relevant events of the period 2012-2022 the book attempts to answer these questions The book is organized into four parts 1 The first part presents the notions of post truth and fake news using some of the most recent critical studies analyzing some typical examples and the environment in which some of them originated 2 The second part introduces the notion of conspiracy theory and describes the emergence of the idea of white supremacy and its ramifications together with the narratives developed during the COVID restrictions 3 The third part describes the emergence of the algorithms behind social networks and their role in propaganda making examples of US and European elections and the Brexit referendum An analysis of Cambridge Analytica shows the tip of an iceberg of disinformation that is spreading around the world Some remarks by comedians and philosophers help to give a new view on the concept of freedom of speech with particular attention to the more and more difficult freedom of the press 4 The fourth part gives some emergency tools for detecting disinformation at an individual level understanding the most hidden mechanisms of disinformation and the biases that almost unavoidably enter our minds These tools come from the results both of traditional theories and the most recent social philosophy of language not despising references to statistics This is a fundamental book for having a general survey of this period of political turmoil consulting a wide list of references and official documents and having a grasp of the means of intellectual self defense This book is non standard it relies on the most sophisticated theories of language and yet it gives everything in simple and colloquial language Differently from sophisticated analyses of linguistic phenomena it gives the feeling of participating in a tour around what happened in the last decade with a disenchanted eye that uses some results of the critical literature without compelling one to become a theoretician in the field of philosophy or critical analysis The hidden focus of the book is freedom of speech and freedom of thought and what they mean today in an era of more sophisticated and widespread disinformation permitted by the algorithms governing social networks
